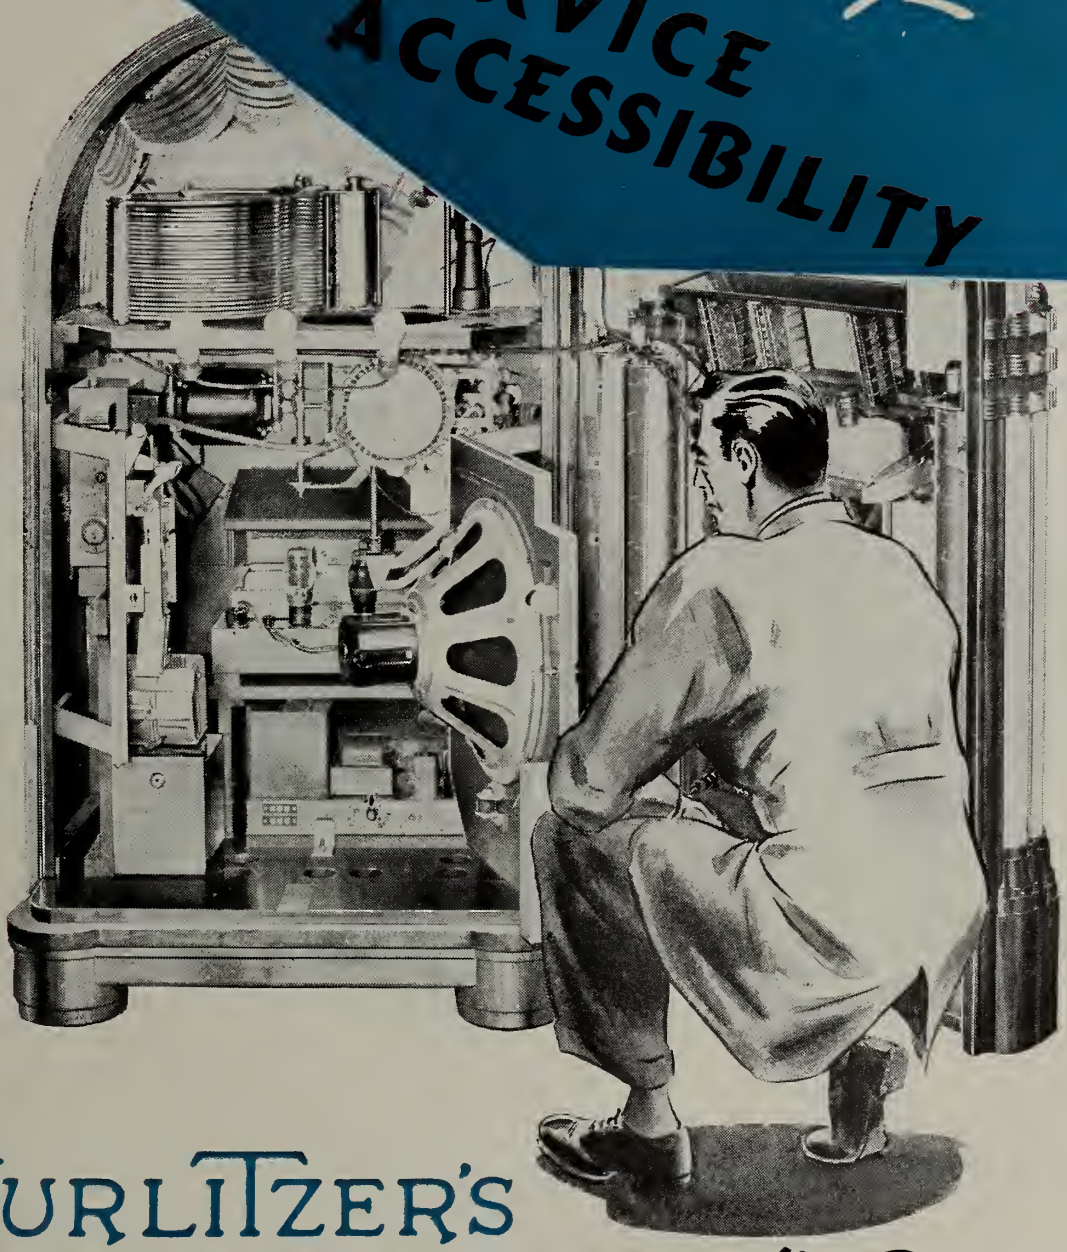
Leadership IN SERVICE ACCESSIBILITY



WURLITZER'S

"CLEARED FOR ACTION" Service

Greatest Time and Money Saver Ever Offered Music Merchants...

Wurlitzer leadership takes in beauty, tone and time-tested features—then goes right on to service accessibility with sensational new "Cleared For Action" service.

You never saw anything like it before. The whole front of the new Wurlitzer Model 1015 is one great door. The whole cabinet interior is wide open. Every unit that would ever require service is right square in front of the service man.

It's a time saver—a temper saver—a money maker—a tribute to the kind of factory engineering that takes into account the fellow in the field. That's all part of Wurlitzer leadership. The Rudolph Wurlitzer* Company, North Tonawanda, N. Y. *The Name That Means Music To Millions".

Must Your Location Owner Know All About Your Business?

•

By Bill Gersh

For years coinmen have found that among the worst competition they have faced has been that from their own location. When location owners learn about equipment, and usually they have been educated to the value of coin operated machines by the operator himself, they have, many times, sought for sources where they, themselves, could purchase the type of machines which were proving most profitable in their place of business and thereby eliminate the operator.

This was proved true in the chain movie theatres after coinmen had, at long last, located the first candy merchandisers. The theatre managers soon learned that they could sell plenty of candy bars. Therefore, they eliminated the operator and installed their own show cases with young women handling the sales direct to the public. The theatre owners thereby received all the profits.

The same has proved true time and time again in the past. It has happened during the present era and will continue in the future, unless this industry awakes to the fact that open publication of its business methods, its inner workings, it prices and its machines be so concealed that the general public, and especially location owners, know nothing at all about them.

Is it necessary for machines and prices to be openly published where storekeepers can read them? Must they know the prices of used machines as well as the new equipment? Must they learn all about operating methods? Must they also be told where to buy equipment?

Why should location owners learn that the trade is attempting, so that it can survive and continue on with a greater surety of success for the future, to cut commissions to a 70%-30% basis? Must they know about adverse legislation and where it is taking effect? Must they read about tax bills and what these mean to the industry?

Must they know about other plans and ideas in this trade? And must they, worst of all, because they may have at present certain machines in their stores which are proving profit makers, learn where to buy these machines, and for how much?

Unscrupulous wholesalers have always claimed that when they do make a single machine sale, especially a great many hundreds of miles away from their territory, that they believe they are creating a "new" customer. These men know, just as does everyone else in this business, that the chances are 99 out of 100 that this single machine buyer is a location owner.

The Cash Box has been offered dozens upon dozens of lists by well meaning coinmen who feel that this publication is the one publication which will lead the industry to a better future. Not only because *The Cash Box* remains a strictly confidential medium exclusively devoted to the best interests of the coin machine industry and the coin machine industry only, but, because they feel that *The Cash Box* is offering the finest suggestions for the good and welfare of this business. And everytime, *The Cash Box* has had to cleanse dozen and dozens of names off each of these lists—storekeepers' names—names like: "Joe's Tavern", "Jones' Emporium". Smith's Candy Spa", etc., etc.

The time has come for this industry to definitely assert itself. The time has come, as operator after operator reports a loss of one or more locations due to direct sales, when this business must absolutely eliminate the open publication of all inside news and prices. It simply must revert to being an industry, within an industry just as every other industry is.

The average man in this business doesn't know what his druggist pays for his favorite toothpaste. There is, then, no reason why that druggist should know what he pays for his games or phonos or whatever other coin operated equipment he may feature in his druggist's place of business.

The fact is that once a location owner purchases his own machine neither hell nor high water will make him sell or remove that machine. He always comes back with the answer, "Listen, whatever I take out of *my* machine, even if it's only two bucks—brother—them's MY two bucks. I don't have to split with *you*—or anyone else."

The one and only answer for this industry is to once and for all time eliminate open publication of its legislative affairs, its business methods, its inner workings, its machines and its prices to the public and to the storekeepers—and especially to officials and blue-noses who have to pay but a few pennies to pick up a copy of such a publication from a newsstand.

YOUR $25 CAN START THE CMI PUBLIC RELATIONS BUREAU WORKING

CHICAGO — The CMI (Coin Machine Industries, Inc.) 134 North La Salle Street, this city, have appealed to all in the trade to enter into the public relations programs which they are now preparing (and which they believe will benefit the entire industry) by becoming associate members of this organization at a $25 per year fee.

For over three years *The Cash Box* has been appealing to the trade to get a "Public Relations Bureau" started. The need for such a bureau grows greater each day.

When Ray T. Moloney of Bally Manufacturing Company, Chicago, got up on the floor at one of the CMI meetings and called for the creation of a "Public Relations Bureau" by the manufacturing members of the industry—this climaxed the years of appeal by this publication.

Now there is a drive to get public relations work under way by the CMI. This drive should win the support of everyone connected with this industry, small and large, and should make every member of the coin operated machines business enter into this campaign by sending in his check for $25 to become an associate member of CMI so that this money can be used to start this "Public Relations Bureau" functioning immediately.

On this page there appears a small example of some of the work which a "Public Relations Bureau" could handle and help better general understanding, create respect and win friends for the coin machine business. This item is but one of many. Others thruout the trade can send in their suggestions which could also be used by a public relations counsellor and his staff for the benefit of this field.

The first efforts of a "Public Relations Bureau" cannot be completely concentrated on individual territories, as some coinmen believe. After all, the work must be on a national basis, at least to begin with. After that, as funds grow more available, individual territories can be dealt with when need arises.

The NAMA (National Automatic Merchandisers Assn.) have already raised $60,000.00 among their membership to start a public relations campaign and to win greater understanding and respect for their business from the general public.

There is, therefore, no earthly reason why the juke box field, the amusement division, the weighing scale and service machines of this industry, too, cannot enter into a public relations program and contribute double this amount of money.

For the future better welfare of all concerned with this industry it is up to every individual in this business to send his check today for $25 to the Coin Machine Industries, Inc., 134 North La Salle Street, Chicago, Ill., to get this public relations program working as soon as is possible.

ITEM: *for a "Public Relations Bureau"*
By Bill Gersh

It is truly interesting to hear from every day people how this coin operated machines business is responsible for many of their happiest memories.

Among these are the innumerable families who have been given such great happiness by the voice recording and photo machines.

These are the people who only have, as a record of a soldier son now dead somewhere in Europe or the Pacific, a recording made in some Penny Arcade somewhere on these American shores, before that boy left for his last and greatest adventure.

It is extremely impressive, and yet very sad, to meet such a mother, and find her reverently worshipping as well as carefully guarding a voice recording. For on that recording is the voice of her beloved, dead soldier son.

There seem to be only a few people in the nation who realize that pictures made by automatic photo machines and records made by automatic voice recorders are all that many a father and mother have as a memory of a son who gave his life so that the rest of his nation might survive and continue its chosen way.

Were there a "Public Relations Bureau" in existence for this industry—the fact that such recordings and such photos mean so much to so many parents whose sons have not returned—would be of tremendous value to the present and the future of this coin operated machines industry.

Aren't you proud that your industry was able to give these many mothers and fathers a cherished, lifetime memento of their beloved, dead soldier sons?

Then why not help your industry tell this story to all those blue-nosed fanatics as well as all officials, legislators and just every day ordinary people—so that your industry can grow greater by gaining better understanding and more respect?

TRADE'S LEADERS URGE CREATION OF NAT'L TAX COUNCIL

Foresee Revenue Drives by Many Cities and States. Acclaim "National Tax Council" as "Outstanding Necessity"

NEW YORK — Since publication of the statements of many of the industry's leaders in the February 4, 1946 issue of *The Cash Box* there has been a veritable deluge of letters, wires and phone calls from coinmen all over the country asking for the immediate creation of a "National Tax Council" as suggested by *The Cash Box* for more than three years.

The belief of most of these coin machine leaders is that there will begin, sometime during this year and probably after most of the strikes have been settled, a drive for revenue by many of the nation's communities, large and small.

These men are also of the belief that among the very first of the industries the legislators will turn to will be the coin machine business. They claim that in many communities this has already become apparent and that the reports which have appeared week after week in *The Cash Box* regarding increases in license fees for juke boxes, amusement machines and vendors, will continue to grow with greater frequency because there is no means nor method for the members of this business to protect themselves from such increases.

There is no "National Tax Council" in existence where the coinmen may go to for expert tax advice and where they may obtain the services of experts in tax matters to help them in their communities.

Some of these men are of the belief that it would be best to start a "National Tax Council" by voluntary contributions from coinmen all over the country. They believe that by this method they can raise sufficient funds to get a "National Tax Council" under way immediately.

"At least", as one noted coinman writes, "we shall have one central office in the nation where we can gather together all precedents regarding tax laws in the country, all former tax cases, all victorious tax cases, all taxes now in effect and much other data which would prove invaluable to any territory where sudden tax increases, or new taxation, is being attempted."

The fact is that when taxation attempts suddenly strike any comunity coinmen are desperate for information and have no central office to go to so that they can gather together the information they require to fight any confiscatory or inequitable license bills.

The services of noted tax experts are necessary. The time is rapidly arriving when some sort of standardization of present coin machine taxation must be brought into force. Otherwise communities just run hog wild and charge what they think the traffic can stand. Some territories have even attempted to follow large metropolitan centers where the averages are much better than in the smaller communities.

Many have also appealed to the House Ways & Means Committee in Washington, D.C. for a review of present coin machine taxes by the Federal Government and have, so far, been given no relief whatsoever. This, too, must some day be brought to a head and, as in the case of the counter games, some cure must be found.

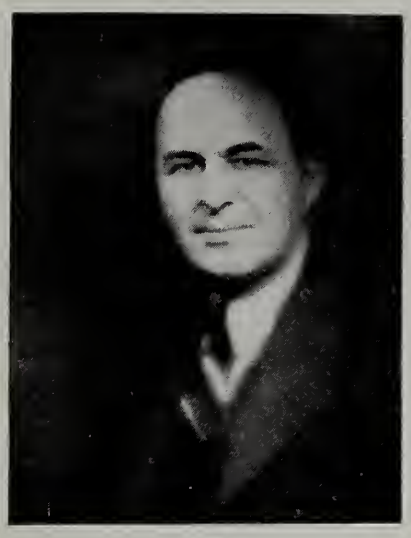
When large cities thruout the country suddenly demand $50 per year per phono license and others jump to $100 and even $150 per year for each juke box—there must be tax experts available to immediately go into conference with the territory's attorneys so that these men will have correct tax information and other tax data on general coin machine taxation on hand to offset such exhorbitant demands by their communities.

A "National Tax Council" is therefore an absolutely imperative necessity for this industry. Larger and still larger public works projects are being planned by almost every community in the nation. The Federal Government has already released information to the effect that income taxes will not, and cannot, be cut down. States, too, have come forward with this same information and it seems that the Federal government will now turn much of its relief taxation program over to the individual states which will require the states to seek greater revenue to carry on relief work.

From every viewpoint this industry, like all others thruout the nation who have already created tax councils, must create a "National Tax Councill" to protect itself from the exhorbitant and inequitable demands of politicos all over the country who now look to this industry as the most fruitful for their revenue purposes.

TRIMOUNT COIN INCREASES FORCE

Dave Bond Adds to Sales and Service Staff



DAVE BOND

BOSTON, MASS. — Dave Bond of Trimount Coin Machine Co., 40 Waltham St., this city, reports that the firm have greatly increased their sales and service organization to accomodate the trade thruout the New England area.

With many former armed forces personnel back at work for the firm there are now 17 people engaged in the firm's offices here. Ten of these, according to Bond, are servicemen and among these mechanics are men who have just been honorably discharged by the armed forces

Dave Bond stated," We are planning to give the trade thruout the New England states the finest service ever yet planned. Several salesmen have been in training here for some months now and are ready to contact the operators thruout this area."

LYLE GRIFFIN ON ATOMIC RECORDS

LYLE GRIFFIN

HOLLYWOOD, CAL. — Lyle Griffin who formerly appeared in many outstanding screen hits and who has also starred in many musical radio shows as well as being responsible for the original "Jam Sessions" at the Hollywood Cafe here, is now being starred by the Atomic Records, who have just recently entered into the recording business, and who believe that Griffin's records will click big with the juke box trade thruout the entire country.

Officials of the firm are confident that music machine operators are going to find Lyle Griffin's music especially to their liking.

In addition, Atomic Records report, they have also signed such recording artists as Slim Gaillard, the originator of "Flat Foot Floogie," Barney Kessell who was named as top guitarist in a nationwide poll, Dodo Marmarosa, pianist who was formerly with Artie Shaw and Ray Linn, former trumpet player with Tommy and Jimmie Dorsey.

New AMI Automatic Hostess Girl

CHICAGO — Fanfair O'Malley will be the new AMI "Automatic Hostess" girl. She will decorate everyone of the new AMI "Automatic Hostess" cabinets which the firm are now producing.

According to De Witt (Doc) Eaton, general salesmanager for AMI, "Fanfair O'Malley, our new 'Automatic Hostess' girl was born in Texas, educated at the University of Southern California and is one of the most popular models and showgirls in the country.

"She will be featured on everyone of the 'Automatic Hostess' cabinets which are coming from our factory. Fanfair O'Malley was picked from among a very large number of girls who applied for the position of AMI's 'Automatic Hostess Girl' and from what our distributors have told us, who met her at our meeting here last month, she is the 'perfect automatic hostess'."

AIREON GIVES BANQUET FOR FIELD SERVICE INSTRUCTORS

KANSAS CITY — Officials at the head table are, left to right, Webster R. Robinson, administrative engineer; Robert R. Renner, general controller; Charles N. Kimball, vice president of engineering and research; Walker; Greenbaum; Brase; Murray Dutkin, works manager; Kenneth D. Halleck, manager of communications products; and Louis C. Hey, secretary and director of industrial relations.

The Field Service Engineers, guests of honor at the dinner, are seated at the center table. They are, left to right on the far side of the table, Harold Hunt, assistant to Brase, James H. Beckham, special liaison service representative to act between engineering production and service men, Gene Happle, William Shankman, Herb Klemme, John W. MacNeal, and John F. Guernsey. On the near side of the table, left to right, are Charles F. Webber, William R. Cook, H. J. Smith. J. P. Cook, L. P. Branson, and Walter F. Howk.

EXCLUSIVE TO "THE CASH BOX" RECORD REVIEWS

By DAVE QUIRK
RECORD REVIEW EDITOR OF THE NEW YORK DAILY NEWS

Blues For My Daddy
Lillette's Boogie
Lillette Thomas
(Sterling SR-100)

● The Thomas aggregation is a good one and does a nice job with both sides. On the first, "Blues For My Daddy," it provides a swell background for Lillette's vocal, which is pleasing. Her piano is a feature on both recordings and she really shines at the ivories in the "Boogie" number. It looks like a solid disk for jive spots.

Boogie No. 1
Sophisticated Blues
The Sepia Tones
(Juke Box UR-100)

● The first side is one of the fastest Boogie numbers ever recorded and it boasts a swell arrangement, with the piano featured. The Sepias are a good aggregation and do a workmanlike job on both sides. Moving from the fast pace of the first side, "Boogie No. 1," they slip easily into the slow blues of the second, "Sophisticated Blues," and still hold your attention as good music-makers. This ebony pancake should get plenty of play in the race spots.

I Cover the Waterfront
Jockey Blues
Cats'N Jammer Three —Bill Samuels
(Mercury 2003)

● an old tune, "Waterfront," gets a new treatment in this version and the group comes very close to the King Cole Trio style of interpretation. It's a romantic ballad and the Jammer boys give it plenty of feeling, with Samuels doing a nice vocal. Guaranteed to be a favorite with the beer-weepers and the puppy lovers. The backing, "Jockey Blues," is a regular blues number with emphasis on featuring the electric guitar. Musically and vocally it's a good disk.

Juice Head Baby
Mr. Cleanhead Steps Out
Eddie Vinson
(Mercury 2031)

● This is a top race disk and the first side, "Juice," also was done by Vinson for Capitol with Cootie Williams' orchestra. The two recordings are practically identical in vocal and instrumental arrangement, and were issued about the same time. Vinson of course does the warbling, all about a fellow who has a gal who likes the bottle too much. So it would hardly be a number for the Sewing Circle or the Old Ladies' Home. The second side, "Cleanhead," is a jump dance number and very good. But it's "Juice Head" that will draw the coin.

SLEEPER OF THE WEEK

"Shoo Fly Pie"
Stan Kenton and Orchestra
(Capitol 235)

● Here's a waxing that will go anywhere, Harlem, Park Ave., O'Hara's Pharmacy or Millville. It's got that universal appeal and that goes for young and old. It's a novelty blues number with the Kenton crew beating out a swell arrangement that has plenty of punch and at the same time is pleasing to the ear, not one of those concoctions that will shatter the eardrums. The lyrics are catchy and on the amusing side, with June Christy doing a nice job of the vocal. Just jot it down in your memory book that here's a disk that will draw plenty of nickels. Especially with the reverse side being an extra added attraction, called "I Been Down in Texas" and is a hillbilly piece in swing time. It boasts a group vocal, but can be danced to.

Takin' Off
If I Had You
Sir Charles and His All-Stars
(Apollo 757)

● This bunch of jazz peddlers comes up with a good, hot dance side in "Takin" and then peel off the reverse, "If I Had You," in a relaxed style that is studded with plenty of quiet improvisations that make this oldie very listenable. It's a disk that will be right up there among the most played lists, so mark it down for your juke box, no matter what the locale.

Hey Ba-Ba-Re-Bop
Slide, Hamp, Slide
Lionel Hampton
(Decca 18754)

● If he never did another thing in the music world, Hampton would go down as a great star, but his latest recording bids fair to be his biggest hit, which is saying two mouthfuls. We're referring to the first side of the disk, "Hey Ba-Ba-Re-Bop," because Hamp is truly sensational on it. But both sides are swell dance numbers. They're good music, not just a lot of noise. And the beauty of a Hampton recording is that it has general appeal. Thousands of debs all over the country already have him tagged as their No. 1 music man.

I'm Just a Lucky So-And-So
The Wonder of You
Duke Ellington
(Victor 20-1799)

● Any Ellington recording is worth a look-see and his latest is no exception. The Duke is a master and rarely comes up with a dud. He wrote these two numbers, and he and his boys handle them with the proper loving care. Both are in slow tempo with a trumpet feature and Al Hibbler vocal on the first side, "Lucky So-And-So," and a Johnny Hodges sax and Joya Sherrill yodel getting the play on the second side, "Wonder of You," with Ellington popular in all types of spots, this disk will get plenty of attention everywhere from the coin box fans.

I Don't Know Enough About You
I Can See It Your Way
Peggy Lee
(Capitol 236)

● Here's a gal who is great with the pipes. And on these two numbers, both blues, she was never better. It should be a favorite disk wherever couples hang around to moon over each other and make plans for the future together. Peggy and her husband, Dave Barbour, wrote the first side, "Don't Know Enough," and teaming up with vocal and orchestra the pair does a grand job with it.

Don't Be a Baby, Baby
Never Make a Promise In Vain
The Mills Brothers
(Decca 18753)

● This star group made wax history with "You Always Hurt the One You Love" and "Paper Doll," and is slated to do it again with the first side, "Don't Be a Baby, Baby," in their latest recording. It's the group at its best and is sure to be a juke box hit in no time.

Anytime Is the Right Time
Little Sam
Roosevelt Sykes
(Bluebird 34-0745)

● Both sides are done in typical Sykes' style and should click in the race spots. The first, "Anytime," is a real blues wailed out as only Sykes can do it. The backing, "Little Sam," is a danceable vocal, which should add to its appeal.

I Need It Bad
Banks Boogie
Buddy Banks Sextette
(Sterling SR102)

● The first, "I Need It Bad," is a funny vocal with a novel rhythm that will draw plenty of notice. It's a change from the ordinary style of such groups. The flipover, "Banks Boogie," is another Boogie done in the Banks style.

C.M.I. BLUE BOOK

FOREWORD Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The C.M.I. Blue Book can only feature the market prices as they are quoted. The C.M.I. Blue Book acts exactly the same as the market quotation board at the Stock Exchange—posting the prices as they are quoted for the past week, regardless of how much they may seem to be out of line. Some prices do not change for months. The C.M.I. Blue Book, rather than show no price, retains the last known quotations for such equipment so that the subscriber at least has the last known prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The C.M.I. Blue Book reports each quotation exactly as it is made and depends on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD The C.M.I. Blue Book should be read as follows: First price listed is lowest price for the week: Second price listed is highest price. Where only one price appears this should be considered lowest price.

IMPORTANT Machines underlined mean these were most active in trading the past week.

CODE Check this code carefully. Become acquainted with each one of the code numbers and what they signify. These code numbers appear in front of the name of each machine.

- **1** MEANS PRICE WENT UP.
- **2** MEANS PRICE WENT DOWN.
- **3** MEANS MACHINE JUST ADDED TO LIST.
- **4** MEANS PRICES WENT UP AND DOWN DURING THE PAST WEEK.
- **5** MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.
- **6** MEANS NO PRICES QUOTED FOR PAST TWO WEEKS.
- **7** MEANS NO PRICES QUOTED FOR PAST THREE WEEKS.
- **XX** MEANS NO PRICES QUOTED FOR MANY WEEKS — PRICE SHOWN IS LAST KNOWN QUOTATION.

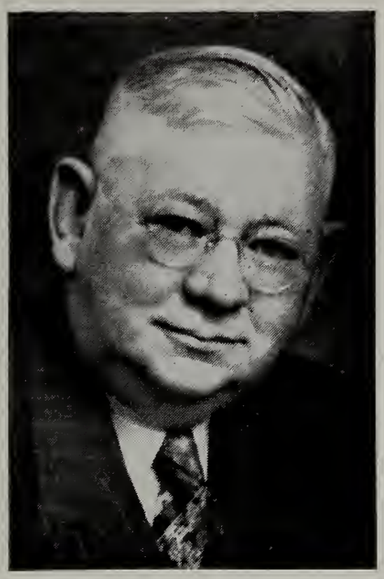
HOSPITALIZED



J. A. DARWIN

EAST ORANGE, N. J. — J. A. Darwin of 133 Hillyer St., this city, eastern regional director for Packard Manufacturing Corp. of Indianapolis, Ind., is hospitalized at the St. Michael's Hospital in Newark, N. J., where he was operated on this past week.

Darwin will remain in the hospital for at least a few more weeks, according to reports, and is expected to then spend sometime at his home recuperating.

Al Dolins On Trip South

BOSTON, MASS. — Al Dolins and James Bazzinotti of Pioneer Music Co., Inc., this city, left this past week for a three weeks' trip thruout the South where, he reports, he intends to get first hand information regarding coin machine business conditions.

Dolins reports, "We believe that we can make use of some of the methods which are proving so profitable thruout the south and when we return will have news of these methods for the New England trade."

BEN LONG JOINS TRI-STATE DIST.

PITTSBURGH, PA. — Ben Long, formerly with Smith & Fields Distributing Co., this city, reports that he has joined the Tri-State Distributing Company here.

Long states, "Tri-State Distributing Co. are exclusive distributors for the Aireon Electronic Phonograph, accessories and supplies in this territory. After many years of experience with the automatic music business I believe that this change is for the best. I have seen the new Aireon line and can advise that not only am I impressed but believe that these new phonos and accessories will be among the best sellers in this territory."

At the present time the headquarters of the firm are in the Hotel William Penn here.

J. J. Mulligan of the Tri-State firm reports, "Long's experience over a period of years, both as an operator and distributor of automatic music has given him an insight into this business that few men enjoy."

Long also reported, "We are going all out to make it convenient for every operator in our territory to enjoy handling the Aireon line. We believe that one of the real methods of selling for the future is to help the music opertor in every possible fashion and we are training our servicemen and mechanics to make operating for the juke box man a simplified task,

"Having been a music machine operator myself, I know just how an operator feels when he can get speedy service and get parts when he needs them without having to wait for them to arrive from the factory. We are therefore going to have one of the largest and best equipped parts and supplies departments that this territory has ever seen."

IT'S THE *HORSE* THAT DOES THE RUNNING!

● When they're out there at the post —and you want to pick a winner— and put some dough on his nose— there's some thinking to be done.

The color of the jockey's silks— and how much they cost—and the price of the jockey's boots—don't have a thing to do with how fast the horse can run.

Apply that to your thinking about automatic phonographs. The spingles and the spangles—the jingle-jangles (which may cost a lot of money) —are not nearly as important as the real thing that makes for profit.

Packard builds-in the play-appeal —without excessive cost—in every product. Witness the Pla-Mor Selective Remote Control Wall Box and its record.

Now comes the newest and greatest —the Packard Pla-Mor Automatic Phonograph. A winner from a winning line—sensationally new and revolutionary in five special ways. You can depend on play-appeal. You won't pay excessively for it.

NELS NELSON HAS GRAND OPENING

NELS NELSON

LOS ANGELES, CALIF. — Nels Nelson, one of the real old timers in the automatic music business in California, announced the grand opening of his showrooms and service repair department located at 2329 W. Pico Blvd., this city.

Nelson spent a great many years managing and operating several automatic music machine routes and is reputed to know the "ins and outs" of the juke box biz.

He stated, "We are going to give the music machine operators thruout the southern California area the kind of service, supplies, parts and equipment they have always wanted. Everyone of our mechanics is tops in this business. We are, therefore, going to maintain an extremely high standard for the trade."

NEW "WESTERN" STAR ON ENTERPRISE DISCS

LOIS (COWGAL) POWELL

LOS ANGELES, CAL. — Frank Berger of Berger Enterprises this city, producers of "Enterprise Records" announces that he has just signed to a long term contract the services of one of the most outstanding girl "western" vocalists.

Berger reports, "She's Lois (Cowgal) Powell who has just finshed recording 'Yippee Aye' and 'I Want Just One Little Darling' on one disc and 'Is It Wrong' and 'Some Mother's Darling' on another disc for us. Lois hails from Pomona, Cal. and has been featured on a number of Western radio programs.

Doc "Eaton" Parades with "40 Selections" Sign

GRAND RAPIDS, MICH. — Reports from the AMI factory, this city, are to the effect that DeWitt (Doc) Eaton, general salesmanager of the firm, is so enthused over the "40 Selection" phono of the firm that he has been parading all over the place with a huge sign showing the keyboard and acclaiming the forty selection idea.

He stated, "Forty selections gives plenty of extra music while drastically cutting down on records costs.

"We suggest that music machine operators wait to see this new AMI phonograph and learn why enthusiasm is running so high among all of our distributors," he stated.

HUNT JOINS AIREON'S SERVICE DEPT.

W. T. (Bill) Brase, Aireon Field Service Director, greets his new Assistant, Harold Hunt (right).

KANSAS CITY — Harold Hunt, who has a long background in the engineering and electrical fields, has joined the Aireon Manufacturing Corporation, R. R. "Rudy" Greenbaum, vice president, announced recently. Hunt will serve as assistant to W. T. Brase, Director of Field Service Engineering.

Hunt attended the Pratt Institute of Brooklyn, N. Y. and has been a foreman at Westinghouse in Detroit; chief inspector of General Necessities Corp., of Detroit; district service manager of Telautograph Corp., of Baltimore; service manager of Russ Manufacturing Co., of Cleveland, and for nearly ten years was a district service manager for Wurlitzer. He helped the Nizer Laboratories develop and manufacture the first mechanically refrigerated ice cream cabinets.

Hunt's many friends throughout the nation, gained in his servicing experience, have given him the nickname of "Hunt & Sons" because of his devotion to his two sons.

Harold W. Hunt is a first lieutenant in the Army Air Forces and is credited with thirty-one missions over Europe. Rowland P. Hunt is an ensign in naval aviation and was finishing night fighter training when the war ended.

PHEASANT AND GREENBAUM

KANSAS CITY—"Charles E. Pheasant has joined the Radio and Phonograph Division of Aireon Manufacturing Corporation after four years of war service with the U. S. Navy," according to R. R. "Rudy" Greenbaum, vice president. He will have the title of Coordinator—Sales and Shipments.

Pheasant entered the automatic phonograph field in 1940, joining Wurlitzer, and then spent a year with Packard. He entered the Navy early in 1942 and was discharged last December 15 with the rating of chief storekeeper. He spent nearly two years of his navy life in the Panama area.

Pheasant first worked under Greenbaum at Packard. He is married and has a daughter 6 months old.

Eckland Designed Over 350 Venders

CHICAGO — According to Jim Mangan, "Nearly all the famous New York designers have designed a coin-operated vending machine or two. Among them are Norman Bel Geddes, Raymond Loewy, and John Vassos.

"But the most prolific coin-operated machine designer of them all is to be found right here in Chicago, the center of coin machine manufacturing. He is Everett Eckland, of Mangan & Eckland, Board of Trade Bldg., who has designed over 350 automatic vendors."

Jim Mangan also estimates that Eckland designed coin-operated machines have taken in at least $20,000,000,000 over two decades of operation.

COLUMNIST GIVES RECORD SUGGESTIONS FOR SUBWAY MUSIC

NEW YORK — H. I. Phillips in his noted column "The Once Over" makes some suggestions for the type of records to be played in the subway if transportation music ever becomes a fact.

He writes, "We suggest as appropriate melodies for special occasions:

"When a lady makes a dash for a seat and just misses—'One Of My Dreams Is Missing.'

"When a gentleman discovers too late that he has passed his station—'There You Go'.

"While anybody stares at a seat he or she thinks will be vacated soon—'You're Worth Waiting For'.

"For that moment when two crusty passengers, after a hot argument, are glaring at each other—'Forget-Me-Nots In Your Eyes'.

"And during all those battles in the doorways—'Only Make Believe'.

"A man would feel better trying to unfold his paper in a crowded train if he could hear that old timer, 'Snuggle Up A Little Closer'.

"But how will a lady feel when three men fall into her lap going around a curve and the music plays, 'I'll Always Be With You'."

NATION'S CITIES INCREASING PAY OF MUNICIPAL EMPLOYEES

Means Higher Tax Rates

School Teachers, Firemen, Police and Other Municipal Employees Receivng Pay Increases. Many Communities Also Plan Public Works and Relief Projects. Need for Higher Taxation to Increase Revenue Becomes Apparent Everywhere in U. S. A.

"National Tax Council" Urgent

Special to The Cash Box

NEW YORK — In a special report to *The Cash Box* a leading tax expert reports that the concensus of leading experts is to the effect that all of the nation's cities, towns and even villages will be forced to seek greater revenue because they have increased the pay of municipal employees to meet generally inflated living conditions.

School teachers, firemen, policemen, aldermen and all municipal employees generally are receiving pay increases. In addition, many communities are also planning relief and work projects and these, too, will require increased revenue.

Using one small state as an example, this expert reports, "New Jersey communities have increased their tax rates anywhere from 3.5 points to as high as 20 points with even the largest city in this state, Newark, increasing its tax rate 6.5."

In seeking for more revenue it is well known to the members of the industry that all these states, cities, towns and villages will attempt to obtain greater license fees from all business. The coin machine industry, along with all others, will be forced to pay higher tax fees.

But because there is no central organization which would be in position to help coin machine men attacked by high (and in most cases, inequitable and confiscatory) license fees, there is a fear thruout the entire trade that this business will suffer very heavily as these new revenue bills and ordinances come to light.

It is also understood that many cities thruout the nation are already preparing (and some have prepared) license bills and ordinances which they will present at the opportune moment.

In almost every case, it is reported, these ordinances and bills feature coin operated machines of every kind for increased license fees.

It is therefore up to the industry itself to immediately get into action and arrange for the creation of a "National Tax Council" which is becoming ever more urgent as each day passes and news of new ordinances and bills are reported by city after city thruout the country.

SCHLESINGER BUYS NEW FACTORY

AL. SCHLESINGER

POUGHKEEPSIE, N. Y.—Al Schlesinger, who is associated with Jack Fitzgibbons in the manufacture of "Roll-A-Ball Barrel Roll" has purchased the Woodcliff Pleasure Park, the 25 acre amusement center in this city.

Situated on the grounds are some large buildings. Schlesinger is taking over the largest one, which will be remodeled and renovated into a new factory. This large space, it is reported, will permit the manufacture of games on a large scale.

"Iit will also permit," Schlesinger claims, for us to proceed with greater production on our present skee ball

JOHN A. FITZGIBBONS

alley, which is in great demand.

"We have other games to follow our 'Roll-A-Barrel Roll' alley," informs Al, "some of which are in the experimental stage and others which are on blue prints. Now with the large space we have, in which to manufacture our games, we can really do a job."

Jack Fitzgibbons, who is handling national distribution sales for Schlesinger's games, has appointed distributors thruout the country. "Our distributors," claims Jack, "are keeping us stepping to fill their orders. Now with a large factory, we expect to be able to make immediate shipment on receipt of order."

ARKANSAS WANTS MORE REVENUE FROM MUSIC

State Revenue Dept. Seeks $2.50 from Each Wall Box in Addition to the Regular Juke Box Fee

LITTLE ROCK, ARK.—Juke box ops thruout this state were very much upset this past week by the regulation promulgated by the State Revenue Department classifying wall boxes as separate vending instruments and therefore subject to a $2.50 tax per year.

Commissioner Otto A. Cook said this was, "The first step to crack down on vending machine and other nuisance tax payers."

Cook reported that department records showed that only 7,352 vending machines of all types, including 3,518 juke boxes were licensed. Juke boxes in this state pay a $5 yearly license.

"There is no tax penalty," he stated, "but the machines will have to be taken out of operation (those that do not have licenses) or we'll confiscate them."

Vending machine licenses in this state are issued on a fiscal year basis, due each June 1. Since last June 1, licenses at $1 annually were issued for 2,931 penny machines vending peanuts, gum, matches, etc.

There were 1,944 amusement machines, such as pinballs, target guns and similar games licensed at $5 per year.

There were also 959 nickel vending machines licensed at $2.50 per year.

(This demand for a $2.50 license per wall box is similar to that now being requested by the Board of Supervisors of Los Angeles County who are asking for $1 per yearly license for each wall box. The music ops association in Los Angeles is now fighting this demand with a petition circulated to the public and all retailers in Los Angeles County and are asking the Board of Supervisors to accept 50c per wall box license annually. Juke box leaders believe further demands for wall box fees will be coming up from other states. They suggest that a "National Tax Council" be created where tax experts can make a study of this situation and perhaps find a solution.)

MARCH OF DIMES HEAD THANKS JUKE BOXES

WEST BEND, WIS. — B. D. Rice of this city, general chairman of the National Foundation for Infantile Paralysis, Inc., North Washington County chapter, thanked the tavern keepers and other owners of juke boxes in his chapter area for the aid given to the "march of dimes" campaign.

Tavern keepers in Marquette County gave all dimes deposited in their juke boxes from January 14 thru January 31 to the infantile paralysis fund.

(The favorable publicity which this created in the press here, and especially the notice gained in the West Bend News, is reported by juke box ops here to have been worth a great many times what was given to the "march of dimes" fund.)

SENT SON TO ROB SLOTS

BOSTON, MASS.—Leroy E. Spring of this city was ordered held in bail of $3,000 by Judge Frankland Miles in the Roxbury District Court after he was arraigned on charges of larceny, contributing to the delinquency of a minor son

Special officers who arrested Spring reported that he equipped his 11 year old son with a key to the cash boxes of slot machines and sent the boy out to rob them.

Spring is also wanted on charges by the U. S. Navy.

HAMEL GETS SET FOR SHOWINGS

W. P. (BILL) HAMEL

CONCORD, N. H. — W. P. (Bill) Hamel of Hamel Distributing Co., this city and Boston, Mass., reports that his firm are now getting all set to show the new Packard Pla-Mor automatic phonograph and the rest of the Packard line of automatic music accessories.

Hamel is reported to be working hard to get his showrooms and offices at 910 Beacon Street in Boston, Mass. completed for the showings of the new Packard line when the units are ready.

He is also arranging for a grand official opening party, he reports, which will introduce his showrooms and offices to the trade thruout the New England area.

STONE APPOINTED ROCKOLA DISTRIB

PETE STONE

INDIANAPOLIS. IND.—Pete Stone, formerly employed as traveling representative for Rock-Ola Mfg. Corp. has just been appointed exclusive distributor for Rockola for this state.

Pete has just recently returned from China after serving three years in the field artillery attached to the Chinese Combat Command.

Stone opened his showrooms and offices at the same location formerly occupied by the late Frank Wixcel. The firm name will be Indiana Automatic Sales Company, 450 Massachussetts Ave., this city.

Stone reports, "We are eagerly looking forward to the arrival of Rockola's greatest achievement, the "phonograph of tomorrow," and intend to invite everyone of Indiana's music machine operators to our showing.

AMOA INCREASE MEMBERSHIP

AL. DENVER

NEW YORK — The AMOA (Automatic Music Operators Association) of this city report that they are enjoying a good increase in their membership rolls.

Members of AMOA claim that this is due to the "conscientious efforts" which their new president, Al Denver, is putting forth to get everyone of the music machine operators in this section into the organization.

AMOA has always been one of the leading music ops associations in the country. Their membership has been among the largest enjoyed by any automatic music operators' group.

Al Denver is being given much credit for the effort being put forth by all members here to bring in evryone of the independents left in this area. "He has given much of his time to make this organization outstanding," music ops report.

THE "GENERALS" CONSTRUCT NEW BUILDING

BALTIMORE, MD.—The three "generals" of General Vending Sales Corp., this city, Aireon distributors, namely: Irvin Bluemnfeld, Harry Hoffman and George Goldman, are constructing a brand new building to be completely devoted to their distributing business.

The new bulding, it is reported, will be located at one of the most important intersections in this city. The lot has a 100 foot frontage on Biddle Street, corner of Howard, with a depth of 140 feet thru to Chase Street in the rear of the building.

The building itself will be 65 feet wide and one entire block in depth. The rest of the lot will be devoted to a private driveway and a parking lot for customers of the firm.

"The new building," he continued, "will have completely private offices, extremely large shipping and receiving facilities, a paint spray room, an operators' lounge and many other advanced features."

Due to inclement weather general construction work has been somewhat delayed. "But," Bluemnfeld reports, "we are confident that the building will be completely finished and ready for official opening either in June or July."

In the meantime the firm are very busy at their present quarters, 306 North Gay Street, this city.

GUTSHALL REMODELS HIS BUILDING

LOS ANGELES, CAL. — Jack Gutshall of the Jack Gutshall Distributing Co., 1870 W. Washington Blvd., this city, has given his building here a complete face lifting and reports that it has won much attention from the automatic music machine ops in this area.

Jack reports, "With the new Aireon line on the way to us we believe that the new showrooms, offices, repair department and other unique innovations which we now have, will prove of good value to everyone of the music machine operators in this territory.

Gutshall is reported to have been traveling for sometime now and has learned, he claims, "That interest in the new Aireon line is at top pitch all over the country."

He also stated, "We are going to make these new quarters the most attractive that we have ever yet had and will arrange for one of the most unique displays of the new Aireon phonos, wall boxes, speakers and other accessories."

WANTS FEDERAL TAXES CLARIFIED

BAKERSFIELD, CALIF. — Fred Allen, well known operator, this city, suggests to the trade that a unified effort be made immediately to, "Take off the Federal tax on phonographs and clarify thhe tax in local Internal Revenue offices in regards to free play games.

He also suggest, "I thing that all free play games should have a Federal tax of not more than $10 each."

LEVITCH ELECTED PRES. OF CINCI CIG OPS ASSN.

Organization Invited to Join NAMA

CINCINNATI, O. — Maurice Levitch of the Stern Cigarette Vending Machine Co., this city, has just been elected president of the Hamilton County Cigarette Vending Machine Association.

Levitch is a former professional baseball player. He played with Mt. Sterling, Ky. in the Blue Grass League and with Atlanta, Ga. in the Southern League. He is very active in savings and loan associations and in many civic and fraternity clubs in this city.

Other members of the Cincinnati association, which was founded in 1939, are: Cincinnati Cigarette and Vending Machine Co., The Monarch Cigarette Vending Co., The Stern Cigarette Vending Machine Co., The George Schulten Tobacco Co., Weisbrodt Sales, Wertz & Sanders and The Western Vending Machine Co.

It is also reported that NAMA (National Automatic Merchandising Association) has extended the Hamilton County organization an invitation to join its national set-up. Such invitations are only granted to organizations which have demonstrated high ability in service and sales to the public, it is claimed.

Truman - Fairless - Murray Reel Strips Click On Club's Slot

Lining Up All Three Pays Off $100 J. P.

SPOKANE, WASH.—Members of the Spokane Athletic Club, this city, are trying their luck at settling the steel strike (and winning a reward at the same time) on the club's new slot.

The slot features reels with pictures of President Truman, Benjamin Fairless of U. S. Steel and Philip Murray of the C.I.O.

By lining up these three the combination pays off a $100 jackpot. It is reported that the machine has been getting plenty of action using this novel reel strip idea.

UNINCORPORATED L. A. COUNTY TERRITORY TO PAY $12 LICENSE FEE

LOS ANGELES, CAL. — The Board of Supervisors are arranging to have coin operated machines in unincorporated county territory pay a $12 yearly license fee.

They have already instructed the County Counsel to draft an ordinance to this effect subjecting all types of machines including skee ball games, diggers and every type of game that comes under the "skill games" category to this license fee.

MEETS BRIDE PLAYING PINBALL THEN TILTS

RIVERSIDE, N. J.—Angelo Campanella, employed here, a 29 year old overseas veteran whose 16 year old bride left him this past week, reported that he met her while playing a pinball machine in a restaurant where he was waiting for a bus.

It seems now that Campanella must have tilted for his bride has failed to return after asking for a week "to think things over."

Many here wonder whether he will go back to playing the same pin game in the hopes that his bride will again show up there.

(This is the first time that a pin game has been reported to be part of a marriage romance.)

JOB FOR THE NAMA "PUBLIC RELATIONS BUREAU"

Columnist Tells of Difficulties to Get a Pack of Ciggies from a Machine

SPARTA, WIS. — Now that the NAMA (National Automatic Merchandising Assn.) has raised $60,000 for public relations work, perhaps the director of the public relations program will find the following experiences of the columnist who writes the "Man About Town" column for the Herald in this city of interest to him.

According to this columnist, "Don't get me wrong. I'm heartily in favor of mechanical and scientific progress. But sometimes I think these mechanical vending machines are nothing but civilian booby-traps.

"Take, for instance, the experience I had with a cigarette machine the other night. I was attending the Jaycees party and after my arrival discovered I'd left home without cigarettes. After successfully maneuvering thru the crowd and getting in front of the machine, I found it accepted only dimes. I had quarters and nickels in my pocket.

"Back thru the crowd again. I dropped in my two dimes, pulled the handle — and nothing happened. pulled the handle again and one dime dropped out. Another two trips thru the crowd to get another quarter changed to procure another dime.

"I dropped in two more dimes, pulled the handle and a pack of cigarettes and a dime fell out. Then later on in the evening when I was shaking out a smoke, a penny fell out.

"We must admit we got full value received. But the suspense was terrific."

SOFT DRINK VENDERS vs BARS PILOT PROBLEM

NEW YORK — Alexander McSurley in his column "Briefing" in the Aviation News, this city, points the problem of soft drink venders vs cocktail lounges and bars for the postwar airparks

Now with many of these private flyer's airparks planning cocktail lounges and bars, McSurely wonders how pilots will be able to be sure that the customer will be cleared to fly "while under the influence."

E. V. DURLING SUGGESTS A MIRROR MACHINE

NEW YORK—E. V. Durling in his widely syndicated column, "On the Side," suggests an idea for a unique mirror vending machine.

He reports, "A good slot machine idea would be a revolving full length mirror. Insertion of a coin would cause the mirror side of the machine to revolve to the front. A time mechanism would make it turn backwards in one minute.

"The desire of women," he continues, "to see how they look in a full-length mirror is great. They would think nothing of paying a nickel for such an opportunity in a mirrorless spot.

JUDGE REFUSES TO PUNISH LONE EXAMPLE

SALT LAKE CITY, UTAH — With the statement that she "won't sentence a lone case until other cases come before the court," Judge Reva Beck Bosone of the Police Court here has indefinitely postponed sentence of Leta Christensen, who pleaded guilty to a charge of permitting the operation of a slot machine on her premises. Judge Bosone said, "This court isn't going to make an example of a lone woman operator of a lunch counter who doesn't even sell beer or permit youngsters to play the machine."

LICENSE COMMITTEE REFUSES TO SET JUKE BOX QUOTA

MILWAUKEE, WIS.—The Common Council License Committee of this city refused to establish a quota on the number of juke box operators permitted to operate here.

John R. Becker said that he wanted to establish his son, John A., a returned veteran in the juke box business and claimed that members of the Wisconsin Phonograph Operators Association were seeking a juke box monopoly to keep all others from entering into the juke box business.

Joseph Futowski, attorney for several applicants for juke box licenses, opposed the enactment of what he called "class legislation." Gilman H. Stordock, department adjutant of the American Legion asked that veterans be given a chance in a system of "free enterprise."

Council president Milton J. McGuire also warned the committee that, "A quota system might work a hardship on veterans seeking a means for a livlihood."

After voting against the quota idea the committee approved operators' licenses for four new applicants.

Altho against a quota, the committee indicated it would tighten up restrictions on applicants for licenses. The fees now amount to $25 occupational tax per year for each operator and $5 additional fee for each machine. There is a $10 per year license for all "soundie" type machines.

Phono ops who asked that the present number of ops be maintained as a "quota" claimed that otherwise there would be too much competition if more operators were allowed in the city. There are 85 phono ops reported getting licenses in Milwaukee at present.

NEWSPAPER VENDER TO BE TESTED BY 5 N. Y. PAPERS

Holds 250 Papers of 20 Pages with 350 Papers in Reserve Compartment at 5c Ea.

NEW YORK—"Within a few weeks," Samuel Leschin, inventor and manufacturer of the first fully automatic newspaper vender, reports, "five New York newspapers will make a test of my machine."

He also reports that newspapers in Philadelphia, Pa., Cleveland, O. and Little Rock, Ark., are also interested in testing his machine.

"The cabinet will hold 250 papers, with 20 pages to the paper," Leschin reported, "and there's a reserve compartment which holds another 350 papers."

The machine will feature a nickel coin chute which means all sales will be for 5c papers. Leschin claims that one man can handle 35 of the machines himself.

Leschin stated, "If the machine really catches on, as we expect it to, things won't go well with the ordinary newsboy's street sales.

Leschin, tho, hopes that his newspaper vender won't be that big of a success. He remembers the days when he sold papers and he liked the job. "There was romance in it," he said.

AUTOMATIC RAILROAD TICKET MACHINE IN OPERATION

PHILADELPHIA, PA.—At the Broad Street suburban station, this city, the Pennsylvania Railroad is using a new automatic ticket printing-issuing machine which is reported to be a development of the pari-mutuel type ticket printer.

When travelers ask for a ticket, delaying only while a clerk sets a pointer, the machine prints a ticket indicating the station between which it is valid, as well as the rail fare and the amount of government tax on the purchase.

Reuben H. Helsel of Long Island City, N. Y. is the inventor of the machine. It is hoped that within a very short time these machines will be made so that they can be operated on the insertion of coins between nearby frequent destinations of suburban passengers.

RENO'S SLOT OPS PLAGUED BY RED OPA TOKENS

RENO, NEV.—Tho Nevada's cattlemen hailed the end of meat rationing with glee, this state's slot machine ops devaluation of red ration tokens meant just another headache.

Before the end of rationing, an occasional red token in a box full of dimes wasn't so hard to take. It meant a little more meat for the operator.

But now every token in the cash box means a dime lost. Greatest victims of the red token onslaught are slots located in relatively isolated groceries and drug stores.

The loss of dimes doesn't make the slot operators as unhappy as the fact that a tremendous number of service calls are coming in all day and night because of the fact that the tokens are jamming the mechanisms.

"SENATOR SOAPER" HAS A NEW ANGLE ON THE HOT DOG VENDERS

NEW YORK—The syndicated humor column, "Senator Soaper Says," featured the following this past week: "A new coin operated machine electrically grills the hot dog and delivers same in a split roll. It is expected that the summer model will tell you who's at bat."

WEBER PREPARES FOR NEW AMI

GARY WEBER

CLEVELAND, O. — Gary Weber of E & W Distributing Co., 1642 Payne Ave., this city, reports that his firm are preparing for the showing of the new AMI phono, the new telephone music system, wall boxes and all accessories of the AMI line.

Gary has completely remodeled his showrooms and repair departments. Has added on new salesmen and is also arranging for much closer contact with the music machine ops in his territory.

He stated, "There is no doubt that when the music machine operators see the new AMI they will be plenty thrilled by its beauty, its 40 records and its marvelous, guaranteed mechanism."

MUNVES APPOINTS SINGER BUFFALO DISTRIB

MIKE MUNVES

NEW YORK—Mike Munves, manufacturer of the "Super Skee Roll" bowling alley, reports the appointment of Hy Singer of Buffalo, N. Y. as the firm's distributor in that area.

Munves stated, "Singer has proved himself as one of the most active of the new distributors in the business. He has already demonstrated his sales ability by rushing us a very substantial order for our 'Super Skee Roll' right after he was advised that he would now be our distributor in the Buffalo area.

"With our production stepped up," Munves continued, "we are now able to supply our distributors with more 'Super Skee Rolls' than we were ever before able to because of lack of manufacturing facilities. Our larger factory has taken care of this and we are advising all of our distributors, as we told Hy Singer, that they can go all out on sales of 'Super Skee Rolls' from now on."

Munves also reported that the firm have many other plans at this time and that they will make announcements just as soon as they are ready to release these to the trade.

The "Super Skee Roll' is reported to be selling very well thruout the country.

"Indicating," as Mike says, "that 'Super Skee Roll' is one machine that gets re-orders from anyone who tries a sample."

Sebring Appointed National Distrib For New Coin Changer

AL SEBRING

CHICAGO — Al Sebring of Bell Products Company, this city, has been appointed national distributor for a new all-electric coin changer which changes dimes and quarters into nickels.

Location owners have been asking that coin changers be installed on all types of machines for many years now. In some spots, neglect by the storekeeper to make change for players, has resulted in loss of much play. Operators have complained about this for years.

"Now," Sebring reports, "with our new all-electric coin changer, which is location tested and proved perfect, coinmen will not only get more play but bring greater ease of play to the general public and certainly create better feeling with the location owner.

"Our changer," he continued, "has a capacity of $40 worth of nickels. It is perfect for installation in juke boxes, all types of amusement games and vending machines. It adds to the machine, not only by increasing its value, but by doubling the profit for the operator because it makes it so easy and convenient for the customers to use the machines."

TUGBOAT STRIKE DARKENS & COOLS N.Y. AMUSE SPOTS

Mayor O'Dwyer Bars Delivery of Coal or Oil to Amusements and Cuts Off All Outside Lights. Insides Are Browned Out

NEW YORK — Manhattan island went back to wartime status with the vote of the tugboat strikers that they would not return to work even tho Uncle Sam has taken over running of the tugboats here.

Very first spots hit by emergency proclamations of Mayor O'Dwyer were Manhattan's amusement places, including all legitimate theatres and movie houses.

No coal or oil will be delivered for heating purposes to these places. All outside lighting must be shut off. Inside and street lights will be browned out as during the war period. All buildings here were ordered to cut down on heating to 60 degrees during this emergency.

Schools have been closed and these will be used as emergency hospitals by the city which expects a tremendous increase in pneumonia cases.

Penny arcades thruout the city, and especially in the roaring forties, expect a big slump in play while the emergency lasts. This is the first time since the war that all amusement spots were so hard hit by city proclamation.

Arcade men who were reached by *The Cash Box* reported that they will cooperate with the city 100 per cent and will not only turn off their outside lights as ordered, but will also brown out interiors and cut down on using fuel to maintain a 60 degree temperature.

Lack of coal and oil for heating purposes is expected to affect all business places here. Even hospitals are being strictly rationed as to amount of fuel they can receive.

Utilities are receiving the major share.

The fact that business spots will also be browned out along with the streets here is expected to affect all coin machine business. Juke box men believe that there will be a drop in play during this emergency.

Amusement machine men believe that tho play may continue on an even keel for a few more days that it will drop and that the players will stay home rather than visit cooled off and browned out taverns and other spots.

Good Returns To CMI Public Relations Campaign Says Gottlieb

DAVID GOTTLIEB

CHICAGO—Dave Gottlieb, president of Coin Machine Industries, Inc., 134 No. La Salle St., this city, reported this past week that returns are coming in every day to the association's offices on CMI public relations campaign.

"Some of the letters state," Gottlieb reported, "that we should have started this years ago. Others are even more enthusiastic and look forward to the public relations campaign we are planning with real interest."

CMI is asking everyone in the trade to become an associate member of the organization for a $25 fee. This $25 will be used toward the creation of a "Public Relations Bureau" for the industry.

"IF YOU MISS US - YOU MISS MAKING MONEY"

EXPECT MILLION MUSIC LOCATIONS BY 1948

Tremendous Gain in Juke Box and Telephone Spots Foreseen. Single Channel Sponsored Music Expects Big Increase

NEW YORK—Music leaders thruout the country are in agreement that there will probably be a million locations featuring one type or another automatic music by 1948.

Juke box men believe that there will be a tremendous increase in the number of their spots thruout the country once full speed production gets under way.

Telephone wired music devotees are just as adamant in their belief that this sort of music is destined for a tremendous increase in the number of locations in the nation when telephone lines and equipment once again become available.

Most enthusiastic of all are the purveyors of single channel wired music who feel that their system meets with the approval of thousands of retail, professional and industrial outlets which have always wanted music at a nominal weekly or monthly rate.

These latter claim that already large super markets and grocery outlets are asking for sponsored single channel wire music using transcribed advertising plugs made up by grocery wholesalers and manufacturers.

These same coinmen also explain that doctors' and dentists' offices as well as department stores, transport terminals, airports, beauty and barber shops and almost every type of outstanding retail outlet can use single channel wired music.

Juke box men, telephone and single channel coinmen are all out to obtain as many industrial locations as they can possibly handle for industry has learned that music will step up production and helps keep workers from becoming fatigued.

In general, the belief is that *The Cash Box* prediction made about three years ago that there will be "a million music locations" will prove true by 1948. There are at present a computed 400,000 locations featuring automatic music of one type or another.

UNCOMPROMISING POLICY

FROM 1917 TO 1942

"ENDORSING ONLY THE BEST"

In 1942 war restrictions and conditions called for at least a compromise in our policy if we were to continue our business.

Rather than do that we stopped!

Being sure now that nothing can compel us to make even a remote change in our original policy, we are renewing our activities in every field of the Coin Machine Industry with this pledge.

We shall recommend and sell Only The Best Amusement-Merchandising-Music Machines and Accessories.

Our new home at 199 W. Girard Avenue, THE LARGEST OF ITS KIND, will provide most modern facilities to serve operators, jobbers and manufacturers in a manner not equalled anywhere in the United States.

Soon we shall announce our new method of distribution which will be a liberal departure from old fashioned methods and which will benefit the entire industry. Schedules to complete our new home by February 20th are upset by present strikes. We are driving hard to finish the job by March 20th.

Our Pittsburgh branch, however, is now in full swing under the direction of Harry Rosenthal.

Welch Elected By Aireon as Vice-Pres. In Charge of Sales

ARTHUR E. WELCH

KANSAS CITY, MO.—R. C. Walker, president of Aireon Manufacturing Corporation, annouced the election of Arthur E. Welch to fill the newly created, important post-war office of vice president in charge of sales.

Welch formerly was vice president and treasurer. He brings to this new key position a keen understanding of Aireon's numerous activities, its policies, post-war plans and its sales activities.

Following his affiliation with Aireon in 1944 as controller for the Kansas City division, his abilities were quickly recognized. He advanced rapidly through various executive positions.

Welch has a wide background in accounting and financial affairs. He has been assisting treasurer of the Brewster Aeronautical Corporation and comptroller of the Frigidaire Sales Corporation, New York. He also had war time service with the audit section of the U. S. Army Air Forces, having been resident auditor at the Buffalo, N. Y. plant of Curtiss-Wright. He recently was elected a director of the Mission State Bank in Kansas City.

MICHIGAN LCC ORDERS GAMES OUT OF TAVERNS

LANSING, MICH.—Removal of all pin games, slot machines and all other gaming apparatus from premises where beer, wine and liquor is being sold was ordered this past week by the Michigan Liquor Control Commission in a letter to all licensees.

The commission's letter advised, "It is the order of the commission that pinball machines or any gaming machines or apparatus whereby the one who plays stands to win or lose money, trade checks, prizes, merchandise or any consideration, including free games, shall be prohibited from the licensees premises."

This sweeping order apparently applies to all licensees, clubs included, inasmuch as no exceptions were listed. It is noted that specific mention is made in this letter of "free games" as one of the considerations banning pinballs from premises of liquor licensees.

In this same letter, the liquor commission also advised that "the liquor control commission has materially strengthened its enforcement division and is requesting the cooperation of all licensees in the strict observance of all provisions of the liquor law and the rules and regulations of the commission."

The Michigan Liquor Control Commission also listed penalties which would be inflicted on taverns disobeying their rulings. These are considered severest ever yet made.

BACKLOG DEMAND GREATEST IN ALL COIN HISTORY

Used Market Begins to Show a Decline as Demand for the New Machines Goes to Dizzy Heights

NEW YORK — A survey conducted by *The Cash Box* via long distance telephone with leading coinmen thruout the country this past week brought to the fore the fact that the backlog demand for new equipment of all types has reached the dizziest heights in the history of the coin machine business.

One distrib reported, "Ops are actually forcing us to take deposits for delivery of machines if and when they arrive. Nearly everyone is talking to their locations about the new machines that are expected and this has started a whirlwind demand which is absolutely unprecedented in the history of this business."

To match this terrific demand for new equipment comes the revelation in this week's issue of the *"C.M.I. Blue Book"* that prices are beginning to tumble. Even music machines have at last been affected and many models are beginning to go down in price. (This is the first time in many, many months that any drop has been noticeable in the used juke box market.)

Some distribs claim that this is due to the showings of new machines as well as the announcements which have been made in the past few weeks that more new machines would soon be shown to the trade.

"There are also rumors," one distrib stated, "that some of the manufacturers are now ready to break with shipments. These rumors have taken hold regardless of the strikes and lack of materials. Many an operator has come into my office here and told me that he has 'reliable information from a friend' that certain manufacturers will soon be out with new machines and, as they relate, 'in quantity'."

From this survey the industry can gather that the backlog demand, which ran into many thousands of machines and into millions of dollars at the end of the war, has now grown even beyond these computations. The belief now is that the demand is so great that no one in the trade can estimate it in quantity nor in dollar valuation.

Part of this demand, some report, is from the new men who desire to enter into the business and are waiting for the new machines to come out before they will do any buying.

What is most surprising to coin machine leaders is that the demand is just as great in the smaller communities as it is in the larger metropolitan centers. In fact, a few claim that some of the smaller towns and cities are asking for more machines than are the larger communities. This is due to the fact, they state, that most of the larger cities are closed to many types of machines whereas the smaller centers in the country are operating more freely.

Whatever happens in the near future, as strikes are settled and materials again become available, it is the general belief of those men questioned in this survey that the trade will require two or three years to completely satisfy the present backlog demand in this country, without even considering the Canadian, Mexican, Central American and South American markets.

As far as Europe is concerned, most coinmen do not believe that any shipments will be made until sometime late in 1947. They do hope, tho, to be able to begin shipping used machines to the European market by the fall of 1946. But with the present lack of dollar exchange in European countries even this is very, very doubtful.

Some distribs believe that the price decline now beginning to be noticeable in certain types of equipment will halt within a few more weeks when operators learn that any large quantities of machines will not be available for sometime yet to come.

In the meantime all agree that the market has reached its peak as far as new machines demand is concerned.

SO. CAL. MUSIC OPS TO HELP VETS

R. F. (DICK) GALLAGHER

LOS ANGELES, CAL. — The Music Operators Association of Southern California met at the Embassy Hotel (Monday, February 4) in what turned out to be a very lively meeting. About 50 members attended.

R. F. (Dick) Gallagher, president of the organization, presided at the meeting and was ably assisted by Sam Rickline, vice-president and Walter Swartz, secretary. The Board of Directors were also present. These were, E. J. Bullock, Dell Cluff and H. E. McClure.

Most important discussion at this meet was on ways and means to help returning servicemen into the phono field and also to afford them the necessary protection so that they would not be victimized by any unscrupulous persons in this business.

One of the topics of general discussion on the floor was the new license fees which are now being fought by the organization.

An interesting speech was made to the gathering by J. Hickock, business manager of the electrical workers union (A. F. of L.)

Many other matters were discussed by those present and it is generally believed the much increased attendance is indicative of the good spirit with which the music men here are entering into the work of the organization.

BALLY INCREASES "RAIDER" OUTPUT

Jenkins Reports Popularity Has Made Increased Production Necessary

CHICAGO — Production of Bally's "Undersea Raider" gun-game will be stepped up in the near future, according to statement released by George Jenkins, vice-president and general sales manager of Bally Mfg. Company.

"The game was originally released," Jenkins said, "to provide new equipment to the trade during the period when we were preparing for production of novelty-type pin-games.

"The game has proved such a popular money-maker, however, not only in arcades but in taverns, bowling alleys and other regular game spots, that increased production is required to take care of the demand.

" 'Undersea Raider' is not merely another gun-game," Jenkins continued, "but a new and different type of amusement.

"Player sights through a periscope at a realistic ocean scene framed in the circle of the periscope tube. Miniature ships sail in convoy across the scene, and when the trigger is pressed, the torpedo is plainly seen streaking through the water. If struck amidship by accurate aim, the vessel appears to explode in a red blaze that illuminates the entire scene.

"The 'Raider' is ideal for competitive play between two or more players, which, no doubt, is one reason for the remarkable collection reports being turned in," he added.

City Officials OK Banned Slots For Clubs

GRAND ISLAND, NEB. — City officials here have okayed the use of slots in clubs. Even tho the slots were banned in this city early in December, they are once again appearing in clubs here and officials claim that a "limited number will be permitted."

Officials also stated that a provision was being worked out whereby a percentage of the gross receipts from the slots in clubs (but not permitted in business places) would go to charity outside the club's own organization.

THANK YOU

We take this opportunity to publicly thank the many coin-men thruout the nation who wrote, wired and phoned complimenting us on our first new all-print issue of *The Cash Box*.

We promise a great many more new and startlingly different innovations to benefit the coin machine industry and this industry exclusively as we continue into our final, post-war type issue when materials and labor again become available.

Liquor Commissioners Check Slots in Private Clubs

ROCKFORD, ILL.—Pleasure seeking patrons in more than a dozen private clubs where thrown into consternation this past Sunday night when two members of the city liquor commission made one of their periodic visits and observed, they reported, over 55 slots and other devices in operation in several of these establishments.

sioners' visit meant that raids would immediately follow, the patrons deserted the clubs. So far, though, no raids have been made. Many here now attribute the visit to the fact that the liquor commissioners are attempting to get thru a $1,000 yearly liquor license. over the former $500 license fee.

The commissioners claim that their visit was not inspired by an attempted increase in the liquor license, "It would work a great hardship on the small, legitimate social clubs who don't have slot machines,"

PHILLY MUSIC OPS ASSN APPTS. SPECIAL TAX COUNCIL COMM.

Charles Hannum Elected Chairman, Committee to Work With "The Cash Box" to Help Get "National Tax Council" Started. Meeting Also Votes to Support CMI Public Relations Program.

Charles F. Hannum

PHILADELPHIA, PA. — At one of the largest and most enthusiastic meetings of the Phonograph Operators Assn. of Eastern Pennsylvania and Southern New Jersey, Charles Hannum, former manager of the organization (now general sales manager for Atlas Distributing Co., Inc., this city, Aireon distribs) was elected to the chairmanship of a special Tax Council Committee which was apointed by the members present to work with *The Cash Box* to help get a "National Tax Council" started as soon as possible.

The other two members of the committee are Herman Scott, Philadelphia phono operator who has been in the business for about ten years and Louis Klein of Premier Music Co., this city, who has been engaged in the phono biz for about eight years.

The committee was granted unlimited power to continue its work with *The Cash Box* so that it could approve any program which would be instituted on a national basis to get a tax council into operation. The committee also wants to hear from other organizations thruout the country as to their plans to help get a "National Tax Council" under way and would like to meet with coinmen in this regard.

Some months ago the association here voted into their minutes to cooperate in the formation of a "National Tax Council." Since then leading members of the organization have been very active in this respect. When Charles Hannum was manager of the association he had gained much experience with tax detail. Therefore, tho only an associate member at this time, the association believed him best fitted for the chairmanship of this special committee.

Also at this meeting the members present voted to cooperate with the CMI (Coin Machine Industries, Inc.) to get a "Public Relations Bureau" started. Individual members will become associate members of CMI in this plan. Collections are being started by the organization which will send a blanket check, it is understood, to CMI.

It is reported that the reaction of the members present was very favorable to the CMI public relations program and they are entering into this effort very enthusiastically.

Also present at this meeting was Pat Davis, New York advertising man, who has worked up a series of posters for juke boxes which feature the ten leading tunes of the week. It is believed that this is a very stimulating play idea and the ops liked his talk.

A representative of Cosmo Records was also present at the meeting and spoke about the recordings which the firm are producing at this time and also their method for cooperating with the juke box operators.

But most important, ops who were present report, was the creation of the special tax council committee and the general agreement by all who attended to work with CMI to get a "Public Relations Bureau" started. The ops here believe that the work of a public relations program should coincide to some extent with that of a tax council. They are all wondering who will be chosen to head the public relations work and believe that this job requires someone of outstanding prominence.

PACE APPOINTS FOUR DISTRIBS

CHICAGO — Gene Bates, general salesmanager of Pace Manufacturing Co., this city, announces the appointment of four new distributors for the firm. "Each one of these firms", Bates reported, "are very well known in their territories. The operators who will purchase our equipment from them can be assured that they will receive the finest service and cooperation. They will keep a complete line of Pace machines, parts and supplies on hand at all times."

The four firms are: Robert Ehrhardt of Lee's Novelty Company (formerly Shreveport Novelty Company) of Shreveport, La. This firm will represent Pace Manufacturing Co. in western Louisiana, Bates reported.

Meyers and Weiler of the Automatic Music Company, Kansas City, Mo., will represent Pace in eastern Kansas and western Missouri.

Joe Frank of Automatic Sales Company, Nashville, Tenn., will represent Pace in the entire state of Tennessee.

B. D. Lazar Company of Pittsburgh, Pa., will sell and show Pace products in western Pennsylvania and West Virginia.

Further distrib appointments will be forthcoming from the offices of Gene Bates here as territorial distribution is granted. The firm are at present extremely busy getting out machines to their various distributors thruout the country.

SILBERMAN URGES ALL COINMEN TO GET BACK OF CMI PUBLIC RELATIONS BUREAU

Says, "Tax talk is prevalent in many cities". Claims that "Favorable publicity" Pays Off Thousandfold on $25 to Become an Associate Member of CMI

AL A. SILBERMAN

CHICAGO — Al. A. Silberman of Williams Manufacturing Co., this city, whose item on unification of the entire industry in the January 28, 1946 issue of *The Cash Box* won so much acclaim from the trade, now presents an article on why he believes every coin machine man should immediately become an "Associate Member" of CMI.

Silberman's speeches at meetings of the CMI won much praise and comment. He is well liked and very well known for his interest in the industry. His keen understanding of the trade is well defined in this article which he wrote exclusively for *The Cash Box*.

"With the advent of the first period of peace in five years, we will definitely witness a "boom economy" of incalculable proportions, brought about by an impatient consumer demand for manufactured goods of every type and kind, and resulting in an aggregate dollar volume hitherto unprecedented in our entire history.

"The nation's purchasing power has, of necessity, for over four years now been substantially 'damned up' by rationing, regulations, regimentation, regulatory restrictions on civilian manufacture and government controls of every description which affected every person in the United States. This had to be done to effectively harness industry to total war.

"During this period, however, every worker on the home front earned money in such an amount as to exceed his wildest dreams and hopes. and in the natural course of events, every business having merchandise or service to sell had an incomparable 'windfall'.

"The cash boxes of all types of coin machines 'bulged at the seams', making Operators 'Profit Happy'. This condition is still prevalent in large measure, and industry generally faces a lush prosperity, the like of which will probably never be equalled.

"While we look forward happily to the immediate future, we must not lose sight of the serious responsibilities that are attendant thereupon. States, cities, towns and incorporated villages all over the nation will be tapping new sources of revenue for tax purposes.

"Because of the perennial tendency of governing bodies to "pick on" the coin machine operator every time they think of taxing something, protective measures against this danger should be taken, and *N O W*.

"A strong, closely-welded and unified organization can make its strength felt, when the chips are down. During the war, many new industries were born, a large percentage of which will give important competition to those long enjoying virtual monoplies.

"All prewar industries are thoroughly and efficiently organized. New war-born industries will lose no time in doing likewise. *THIS BRINGS US TO THE POINT OF OUR STORY.*

"Practically every industry in the United States is organized. Manufacturers organize on a national scale, distributors and retail outlets form their own state associations. The national organization maintains a Public Relations Bureau on a full-time basis and serves many very useful purposes.

"A Public Relations Department in *A N Y* industry, AND ESPECIALLY in the coin machine industry, is urgently necessary for many very important reasons.

"To be sure, coin machine manufacturers have an association, but frankly, what purpose has it served, up to now, other than perfunctory and routine matters? It has no counsel who can command and receive the unanimous respect of, and advise with the association membership; it has no public relations department to disseminate favorable publicity calculated to acquaint the public generally on the 'good things' the industry has done in the past, will do in the future, and all it stands for generally.

"It is positively amazing to learn how very little is known about, and the magnitude, generally, of the coin machine industry. Is it any wonder then, that the business is frowned upon by a lot of narrow-minded 'peanut politicians' and that coinmen with big investments in legitimate enterprises are referred to as 'racketeers'?"

"How many of these 'tax happy' politicos know of the thousands of returned servicemen being absorbed by the industry? It has no central source of information which would be helpful to distributors, jobbers and operators, who are besieged by serious problems in their local communities.

"In short, and to be bluntly truthful, it has nothing but a name and a membership, of which about 50% has been completely indifferent, giving only lip service to enthusiastic suggestions from other members desirous of making the association a hard-hitting, two-fisted, smoothly functioning organization, completely attuned to the modern tempo of the times.

"It will *H A V E* to have the things enumerated above if it wants to continue in useful existence. A post-war association without a public relations department will be a complete and useless nonentity, like a hot dog without mustard, like Damon without Pythias and like Romeo without Juliet, or like *'Ray without Moloney.'*

"Seriously, however, the signs are encouraging and it looks like that at long last, C.M.I. has been aroused from its lethargy and has parted company with "Rip Van Winkle." It has awakened from a deep slumber and is now rubbing the sleep out of its eyes, taking cognizance of its size, importance and potentialities. This awakening is in the form of a letter sent out by Mr. Dave Gottlieb, President of C.M.I., inviting all coin machine distributors and operators to become associate members of C.M.I.

"This is a tremendously progressive step in the right direction and carries greatly encouraging significance. It would indeed be regrettable if any person in the industry, anywhere in the nation, failed to avail himself of this marvelous opportunity.

"The dividends on the investment of $25 annually will be returned a thousandfold in the advice, favorable publicity and other important benefits which associate members will derive from a public relations department.

"Don't hesitate . . . act *N O W*, send your check immediately to the C.M.I. LET'S MAKE IT UNANIMOUS and build a solidified and protective wall around our industry which with the full force and effectiveness of its unanimity, will be ready at all times to meet and successfully fight off any and all attempts to siphon our legitimate profits through ill-considered and unjust taxation.

"The warning signals are up. Tax talk is prevalent in many cities. The immediate future is fraught with serious possibilities. Do YOUR part to help YOURSELF against those groups who would tax *you* OUT of existence. Join C.M.I. immediately as an associate member."

THRU THE COIN CHUTE

CHICAGO CHATTER

Sure is funny how this visitor business happens in the "Coincenter." Some weeks there just doesn't seem to be a soul in town and other weeks (like this past one) the town seems to be simply jammed with visitors from all over the country. These streaks have been going on since the day the war ended. But, we do hope that everyone who wants to visit with the manufacturers, distributors, supply firms and jobbers in Chicago, makes it his business to obtain round-trip railroad or plane tickets and also makes very, very certain (by confirmation if at all possible) that he has a hotel room here in town. More and more conventions are coming into Chicago every week and unless coinmen have reservations they are going to find it extremely difficult to get rooms.

Visitors seen making the rounds: Peddicord and Moore of Spokane, Wash. who are much interested in the new equipment . . . J. A. Wallace of Oak Hill, W. Va., who just returned from serving his Uncle Sam and is getting ready to open up again . . . Art C. Rud also of Spokane, Wash. who believes that the manufacturers have something of real interest for him . . . C. M. Michaelson, an op from northern Michigan, who was pleasantly surprised at the activity here in the coin-center . . . Lou Boasberg of New Orleans—always a welcome visitor for he does the town quick and gets his business done as fast as possible.

Also in town this week was Harry Jacobs, Jr. of United Coin Machine Co., Milwaukee, and it was good to see him. Harry had spent a few weeks in a hospital but looks right in the pink of condition again and is rarin' to get going. Many coinmen here who have seen Harry's place in Milwaukee report it is one of the most outstanding in the industry . . . Izz Alpert of Twin Ports Sales Co., Duluth, also in town. We like to see Izz around. He's one of the nicest gentlemen in the coinbiz and one of the most modest, too, regardless of the fact that so many rave about the beautiful work he does in his large place up in Duluth.

T. B. Holliday of Charlotte, N. C. also in town and finds the weather anything but to his liking . . . Charley House of Kentucky Amusement Co., Louisville, one of the really old timers in the coinbiz was seen around the coin center this past week. It sure is good to see Charley traveling around again especially after all that illness he went thru the past few years. But, it looks like the thought of the new equipment just simply helped to cure him and Charley is back in speedy action once again . . . Eddie Corriston and Ben Becker of Palisades Specialties Co., Cliffside Park, N. J., also in town this past week and over at the Bally factory to see the great Bally line of equipment which they are handling in the New England states. Both Ed and Ben are tremendously enthused over Bally's great one-ball.

Sam London of Milwaukee Coin Machine Co. also in town this past week . . . Lenny Goldstein of T & L Music Co., Cincinnati, seen here and there visiting with friends and telling about his firm's doings . . . Al Sebring of Bell Products Co. is on his way to the west coast and intends to spend an entire month there, during which time he hopes to find the right headquarters for his firm. Al will handle Williams' games in northern Cal., Ore. and Wash. and his headquarters will have to be in such location that he can take care of the many plans he now has . . . Dave Gottlieb tremendously elated over the results from the CMI drive to start a "Public Relations Bureau" (as suggested by The Cash Box for more than three years) into immediate action. "About 65% of the returns right now are from the music machine men," Dave reports. "And," he continues, "I wish you could read all the nice letters we are getting from the trade telling us we should have started a public relations program years ago."

Gill Kitt of Empire Coin Machine Exchange reports that his record month in the coinbiz was this January. It topped all previous months since he founded the company. According to Gil there has been a lot of buying of used equipment and, instead of slowing up, it is getting heavier every day. In the meantime Gil complains of the fact that he is so short handed that his correspondence is suffering. "I'm away behind on answering mail," he reports, "and it just keeps stacking up and up." . . . O. J. Mullininx of Mullininx Amusement Co., Savannah, Ga. in town and has the widest and happiest smile we've seen in months when we catch up with him. The reason? "O.J." has just been appointed Georgia distributor for Rock-Ola's "phono of tomorrow" and, brother, is he happy.

Since Roy Bazelon (Monarch Coin Machine Co.) acquired that "dream house" alongside the ocean in Hollywood-by-the-Sea, Florida, he's spent most of this winter 'neath the tropical sun. In the meantime over at the Monarch building remodeling work is still going on full blast but it looks like it'll be spring before the building is all ready. Keeping things going at top speed is that capable Monarch team, Nemeroff & Murphy, who are plenty busy trying to keep up with the demand for games. "And," they lament, "the source on used games keeps geting tighter and tighter."

Over at Mid-State orders just keep piling up and piling up because they are unable to get the used games they need out at this plant to keep on making "Hollywood." . . . Jack Nelson is all set up in his new offices at 800 N. Clark St. and already up to his ears with letters he has received from all over the country inquiring, "What's cookin', Jack?"

There's a new juke box in the making and it will be ready for showing soon . . . Understand that Paul Bennett (the needle man) will break out in print with something new in the very near future . . . Over at the Daval plant where Al. S. Douglis and Dave Helfenbein are working like trojans to get all set, things are at last beginning to shape up and it looks like games will be humming down the production line . . . Jack Fitzgibbons of Jafco, Inc., they tell me, will be in town sometime this coming week . . . Also Sam Stern of Scott-Crosse Company, Philly, is expected to arrive in Chi almost any day now . . . Leo Lewis the man behind the Hockey conversion is reported to be up to his ears trying to handle ops requests that he convert their games.

Harry Williams (Williams Mfg. Co.) is reported to be working 24 hours a day plus so as not to keep his distributors too long without "Suspense." And from the action going on at the Williams plant there is now no doubt that Harry will be getting them out to his distribs in as speedy time as humanly possible . . . From all indications there will soon be a surprise showing of the new Rock-Ola "Phonograph of Tomorrow." Everything is being planned with complete thoroness and being prepared for that showing.

Plenty of action over at American Amusement Co. where those new silver chrome fronts are attracting all the leading slot men in the country. From the way that Harold (Perk) Perkins and Harry Brown are zooming around the place looks like every slot man in the country is rushing to get these as fast as he can . . . And still one of the busiest places in the whole world is that Bally factory. Brother, this is something to really see. The way those executives are rushing about and the noise of the motors humming thruout the plant gets anyone who listens for even a few minutes eager to be in action — but quick.

Joe Westerhaus of Westerhaus Amusement Co., Cheviot, O. in town this past week and meeting with some of the leading manufacturers. Joe is reported to be ready to take on some large distributorship deals and from all indications will soon have some important announcements to make to the trade in his territory . . . Ben Coven, Bally's distrib here, has just put on two more salesmen. They are Ben Stein and Art Cady who will contact all coinmen in Coven's territory. Both men are experienced salesmen and know how to take care of customers, Ben reported. He also stated, "The operators are going to find both Stein and Cady two of the really swellest people they've ever yet met."

THRU THE COIN CHUTE

EASTERN FLASHES

Many of New York's coinmen are in Florida, building up their strength for the coming months, when they expect to be in fact action. Distributors, jobbers, and operators—all looking for a few weeks relaxation before the arrival of new equipment, when they will have to concentrate 100% on business . . . Charley Sachs, Union Automatic Music Co., Brooklyn, N. Y., returns home after spending a month under Florida's sunshine, and Louie Becker, his partner, immediately packs his grips and goes south . . . Among the New York operators now seen either on the beaches or clubs are Al Denver, president of the music operators' association; Harry Brodsky, Harbor Music Co.; Jim Noonan, Noonan Amusement Co. and Charlie Herman of White Plains.

Jack Fitzgibbons, Jafco, Inc. leaving for Chicago, Sunday (Feb. 17) for some conferences with the factories he represents . . . The serious illness of their mother keeps Dan and Johnny Christopher close to her bedside. Dan came in from his arcade in Norfolk, Va. . . . Herman Perin, Runyon Sales Co., on a buying and selling trip thru the southern states. Perin has been really traveling these past few weeks . . . Barney (Shugy) Sugerman, head of Runyon Sales Co., expects to finish up his short vacation and be back at the office around the 13th or 14th of this month . . . Barney Schlang, manager of the music association, expects an heir around the middle of April . . . Ruth Nussbaum, Schlang' secretary, back at the office from her honeymoon.

Charlie Polgaar, Tri-State Sales Co., Inc., (Bally distributors) splits up his day rushing from the Newark offices to the New York offices . . . Jack Berman, Economy Supply Co., back from the Navy about a month, in complete command of the stock and prices of the many items they carry and can now quote prices without looking at the catalog . . . Sid Mittleman, American Coin Machine Co., Newark, N. J. returns from a visit to Chicago, and claims he will have an announcement to make in the not too distant future . . . Vincent Capizzola, Cappy's Music Co., Brooklyn, N. Y. returns to his office after a siege of the flu, but his entire family still in bed with the same illness . . . The mechanics who attended the Aireon technical demonstration in Kansas City, returned to their distributor offices flashing special cigarette lighters with the Aireon trade-name.

Bill Alberg and Charlie Aronson, Brooklyn Amusement Machine Co., Brooklyn, N. Y. training out to Chicago, February 17 to see the manufacturers. Alberg and Aronson will make an important announcement to the trade in a week or so . . . Jake Breidt, U-Need-A Vendors, Inc., Union City, N. J., returns from a business trip to Florida, and very happy to see the cigarette operators flocking into the New York office to view his new cigarette machine now on display . . . Altho Dave Lowy is still in the army in Italy, his associates here have renovated and redecorated their offices and showrooms. They are hoping Dave will be eligible for discharge this summer . . . Bernie Wolfson, formerly connected with U-Need-A Vendors, Inc., now on the staff of Runyon Sales Company of New York.

Max Schaeffer, dean of the Arcade Owners, introduces Fred Schork, son of his former partner, Bill, who died a few years ago. Fred, just released from the Army, will take an active interest in the business, as will Schaeffer's two sons, also recently discharged from the service . . . In a discussion about the old days, Mike Munves and Max Schaeffer recall the time when Schork & Schaeffer opened their arcade on West 42nd St., twenty-three years ago. This was the first big time arcade to appear anywhere, and it had the trade gasping because of the elaborate set-up and the extremely high rental of the property. There were many pessimistic predictions, but Schork & Schaffer had the foresight and vision far beyond their contemporaries. Additional arcades were later opened along New York's "White Way", and these two men attained great wealth and prestige.

Eddie Corriston and Ben Becker, Palisades Specialties Co., Cliffside Park, N. J., and Sales Directors in the New England States for the distribution of Bally Manufacturing Co. products for Pioneer Distributing Co., visiting Chicago . . . Hymie Rosenberg, H. Rosenberg Co., returns from a mid-western trip elated over the deals he made . . . Harry Berger, West Side Distributing Co., left the city for a trip to a southern state to buy up some music equipment . . . Stanley Oles, George Ponser's right hand man at Amusement Enterprises, Inc., getting into the swing one again, and claims he likes the biz more than ever. Stanley is back from the service only a short while and at first found it hard to adjust himself . . . Ed Ravreby, Associated Amusements, Inc., Boston, Mass., back from his short vacation in Miami, and is his staff glad to see him back! Business was so brisk that the large staff was really hustling. Now that Ed is back and additions to the personnel planned, all business will be able to be taken care of in the usual "Ravreby manner".

Coinmen here sorry to hear that Joe Darwin, Packard's eastern regional director, is so sick at St. Michael's hospital in Newark, N. J. Here's hoping you'll soon be up and around with the usual Darwin speed, Joe . . . They tell us that those Cosmo records are beginning to get attention . . . And they also tell us that the music ops here have their hands full these days trying to get a record or two from Decca. It seems that this is now considered the "miracle accomplishment" when records can be obtained. Funny, isn't it, how the war changed some things and some ideas?

Eddie Berk over in Newark is looking for slug-proof coin chutes . . . Sol Kesselman who manages the Newark phono ops assn is reported to have an idea for unification that will maybe change the entire music picture nationally . . . What happened to Nat Cohn and Earl Winters—we just don't hear from them . . . Bill Rabkin in and out of town these days . . . Some noted California distribs are expected in town very soon . . . And they report that there's a new phono gonna crack right out loud from the Chicago area any day now.

One of the biggest and best studios in the east is captained by Bernie Goodman who moved over to Jersey City because he can get wires into Manhattan cheaper from there than he can here in Manhattan direct . . . Expect to see Willie (Little Napoleon) Blatt around Brklyn soon again. And that's regardless of those flashy sport shirts the kid's wearing these days in his Miami paradise . . . They say that Manny Ehrenfeld has one of the grandest ideas for getting a dime from wired music players that has ever yet been originated . . . Some of the Mills Industries people around town—mostly at the Chatham Hotel.

Eddie Smith of Emby reported to be jammed with orders for Wurlitzer's model 1015 and wondering how he'll deliver them all at one time . . . Harry Pearl of East Coast seen at the Tavern restaurant in Newark entertaining a prospective customer for that "Phonograph of Tomorrow" . . . Eddie Pecora who heads the electrical workers union in Newark is getting more and still more musicops signed up . . . And they tell us that Frank Callan isn't doing such a bad job right here in New York City either . . . Jimmy Harris is happier these days than he has been in a long, long time.

According to inside info—it won't be so long now . . . Mike Munves is getting his place down on 43rd Street and 10th Avenue looking like a million bucks and expects to be showing the new AMI phono even sooner than expected . . . Dave Margolin is waiting for "A" day—that's the day when Aireon will show their line of music machines and accessories . . . And there's already plenty of equipment being shipped down to South and Central America from this "big town" — which means that the boys are awakening once more to the value of export biz.

George Ponser and Irving Kaye are reported to be doing remarkably well with their bowling alley and from further reports we hear that they may spring with a new idea very shortly . . . Max D. Levine of Scientific sure does look dignified when he sits up there at the head of those B'nai B'rith meets . . . Bill Rodstein of Philly in town for just a minute or two the other day enplaning for the west—he's on his way to California where he will spend some time soaking up sunshine and looking things over.

They tell us that that measured music outfit in Newark has plenty on the ball when it comes to facts and figures concerning the music biz . . . New financing can be expected, and in big heaps, too, in this town—for music machines, anyway . . . Haven't seen Bip Glassgold around of late . . . And that reminds us, R. Z. (Bob) Greene of Rowe (who gets more sedate looking and handsomer every time we see him) won himself a terrific batch of publicity on his statements that venders would reach their zenith this year—and in the leading newspapers of the country as well as all the best business press . . . Dave Stern, East Coast Sales & Dist. Co., Elizabeth, N. J. in Chicago visiting his Navy son, who is stationed in Great Lakes training.

THRU THE COIN CHUTE

CALIFORNIA CLIPPINGS

Charley Robinson of C. A. Robinson Co. leaving for Chicago this week. Charley reports that he has some important conferences in the "Windy City". (Hope he's not talking about McGovern's again.) . . . Paul and Lucille Laymon are spending weekends in Palm Springs. The folks have been working very, very hard and believe that a little of that desert sunshine won't hurt them a bit. In the meantime, Paul received his Bally Victory Special this past week and before the week was over the place was a bedlam with ops trying to get them out of the showrooms and Paul on the long distance phone yelling, "More, More. For goodness sake, George, send me more." . . . Aubrey Stemler who is the new director of the phono ops organization here is reported to be on the go every minute of each day.

Bud Paar of General Music Company is also leaving for Chicago and will spend a few days there. From the Windy City Bud intends to go right on to New York where he has some important business to transact — and maybe see a little bit of Broadway and Park Avenue while he's there. Bud just recently formed the Solotone Corp. with L. B. (Mac) McCreary and F. E. Wilson. The new firm have obtained headquarters at 2311 W. Pico Blvd., right in the heart of coinrow . . . Ops seen shopping along coinrow as we strolled by: Ray Garrison of Phoenix, Ariz., Jack Beavers of Oxnard, Calif., Henry Van Shelton of Whittier, Cal., Chas. Bunny of Flagstaff, Ariz. and G. F. Cooper of Riverside, Cal.

Charley Robinson recently appointed Packard regional mgr. is having his new building completely readied to house the Packard line as well as the Record Distributing Co. Charley plans on keeping the old building he is now occupying for distribution of other coin machine equipment . . . Wm. (Bill) Nathanson reports that he will be all set within a few days to make a very important announcement to all coinmen. Bill has been working very hard behind the scenes and, from what we gather, is now all set to go . . . Nels Nelson reports that he may handle the distribution of some outstanding coin machine equipment. He has been receiving some mysterious looking crates of late that have the boys wondering.

Jimmie Rutter who won much acclaim for the fact that he is training ex-servicemen to become mechanics is keeping these boys plenty busy. Once he believes that they know their stuff he helps get them set in permanent jobs. (And that's really a 4 star award for Jim) . . . Len Kelly of K & M Distribs, who now have the Atomic Records which are starting to click so well, will be coming back here soon from a very successful trip thru northern Calif., Oregon and Washington. In the meantime, Fred Meyers, the other half of the firm, has been keeping things humming here . . . Bill Leuenhagen reports that he will have an announcement of good importance to the ops very, very soon.

Len Micon of Pacific Coast Distribs is all thrilled over his appointment as distrib for Packard Pla-Mor phono, Packard wall and bar box and the rest of the Packard line of music accessories. Len recently remodeled his showrooms and the Packard line fits in very well with his beautiful spot. By the way, he also handles the Evans line here . . . Eddie Mape of E. T. Mape Music Co. in town this past week and reports that he has been eagerly awaiting news from one of the new firms in the business. Ray Powers, tho, who is Eddie's manager here, reports that "something big will come soon, so just hold on".

H. M. DeGovia of Dee's Service is very busy these days showing his son around the place and teaching him all the angles. The boy just returned from service overseas and is anxious to get into his dad's business . . . Bill Williams, father of Harry Williams of Williams Mfg. Co., Chicago, who opened offices on coinrow here to distribute the new "Suspense" game of the firm reports that the ops have been coming in every day to get acquainted and learn more about the game . . . Lyle Griffin, well known ork pilot, and president of Atomic Records, reports that the firm is ready to release some more very sensational recordings.

M. S. (Bill) Wolf of California Amusement Co. has just returned from an extended visit to Chi where he reports he saw the new AMI phono claims, "It's the hottest thing on the market and will create a sensation when shown to the ops." Bill is preparing for one of the biggest showings in California history of any phono distributor. In the meantime he rushed up to Portland, Ore. on business and from all rumors current here it seems that Bill will soon be opening offices in the far north. Bill also reports that he will have plenty of Bally's Victory Specials for the boys.

Jack Gutshall, who just returned from a whirlwind trip around the country, where he appointed distribs for his line of records, reports that the "Excelsior" and "Exclusive" labels are clicking like hot cakes everywhere he went. At the same time Jack is looking forward to "A" Day when the Aireon phonos will be shown to all the trade.

Frank Berger of Berger Enterprise who presses and distributes the "Enterprise", "Liberty" and "Chapel" labels has just completed several new releases, he reports, for the juke box trade. Berger says, "It's our policy to produce records that will make money for the phono ops. We will continue to make only records that will give complete satisfaction in every way." . . . W. Merle Connell, production mgr. for Quality Pictures reports that the firm has just completed some new 16mm musical shorts for the coin machine men. He says, "Brother, these are going to meet with 100 percent approval".

Elky Ray who represents D. Gottlieb & Co. here can be seen every day watching the progress being made on his new building located on coinrow's Pico Blvd. Ray claims, "I expect to move in within 60 days or less." . . . Wm. (Bill) Happel's new building on Pico Blvd. is coming along with great speed. Workmen are simply swarming all over the place. Bill expects to be in these new, big, spacious quarters within a few more months. "And", says Bill, "what a relief it will be to have plenty of room to meander around in once again."

John Rough of Phonofilm reports that he has plenty of good 16mm film in stock ready for immediate delivery to coinmen anywhere in the world . . . Bill Schetter, who is sales mgr. for Clark Distributing Co. here, distribs for Wurlitzer, reports that orders for the new Wurlitzer model 1015 are simply piling up and piling up. "But", claims Bill, "we expect to make delivery very soon." . . . "Curley" Robinson is calling a special meeting of AOLAC for Wednesday evening, Feb. 13 at 6:30 P.M. at the Rodger Young Auditorium, 936 W. Washington Blvd. He expects to have a 100 percent turnout for this affair.

(Aside to Jack Gutshall: Just noticed that our Dave Quirk, who is also record review editor of the New York Daily News, picked your number, "Just Give Me A Man" (Excelsior DeLuxe Series) as the "Sleeper of the Week" in the February 4 issue of our little paper.)

THRU THE COIN CHUTE

NEW ORLEANS

Cheery Notes: Smiley DeBruyne, Mobile op, thinks it's terrible that he's still in love with his wifey—especially, as he claims, after 32 years of wedded bliss. But, to everyone else around these parts, it sure does sound wonderful . . . Nel Jacques is back at work again at Johnny's Music House after her recent illness. And that blonde hussy is just as effervescent as ever . . . Jack Embry, Memphis op, who does a grand job operating Wurlitzers wherever he can locate a route, down Nola way for biz and other reasons(?) . . . That smash-up which occurred in front of F.A.B.'s door proved to be more interesting when the car that was hit was found to be Johnny Lingle's with Johnny himself at the wheel. No one was hurt, thank goodness . . . That tall drink of water, op Ralph Sims of Alec, in town to attend to thisa and thata—so he says.

It won't be long now—just 3 or 4 more weeks 'til Mr. and Mrs. Platter-Player can eye the J & M Amusement Company's snazzy showroom. Insiders claim that it's really "all reet" . . . Major Erwin of the American Phonograph Cooperative, Ltd. tells us his quest for a secretary is now ancient history. Yes, friends, you can call her "Pauline" and she's reported to be a whiz at "takin' and typin' " . . . You're right—the stork is hovering over the Bill Grahams' chimney . . . Sorry to hear that Jack Grantham's daddy-in-law fell ill in Chi, preventing Mrs. Jack from joining her hubby in Nola. Hope that he'll have a speedy recovery and that it won't be long before she and the Vieux Carre get acquainted.

Vernon Harvey, who manages the Columbia record dept for Walther Bros., reported to be pretty much on the go these days making sales of these waxeries . . . Seems it didn't take long for Larry Romaquera to decide to finish his bookkeeping course at Loyola University before taking on a steady job. It's in the wind, tho, that he intends to do some nite work for a local op while in school . . . 2806 Canal St. will be the lokashun of the Aireon display on and after February 12 . . . Abe Kalif and Emile Kalil making another joint appearance here to discuss their plans for route running in McComb, Miss.

The Ed Ponders and Mrs. Chris Nissen are "Sloppy Joe-in" it down Havana, Cuba way—and, after a wonderful weekend in Havana, the trio are Miami-bound . . . Charley Loeb, record dept mgr at Electrical Supply, has been under the weather these past few days . . . Jim Savant back tinkering with amplifiers at F.A.B. after being bedridden for nearly a week. George Satterlee didn't do a bad job at all, at all, pinch hitting for Jim . . . When Fletch Blalock, Joe Williams and Al Mendez put their heads together—anything can happen. All were together here on Feb. 4 for an "informal conference"—Whatever that means. And the new cronie in this set-up is Wally Erwin, who isn't lacking in initiative himself.

HOUSTON

General Distributing Co. with offices in Houston, Dallas and El Paso are doing much remodeling in anticipation of a flood of new merchandise they hope will begin to arrive very shortly. General Distrib is owned by Tom Williams of Houston and George Prock of Dallas . . . Attendance records were smashed when Seeburg's new phono was shown in Houston on Jan. 29. About 100 ops packed the auditorium of a large downtown hotel where S. H. Lynch Co. officials were showing the machine. Dignified, silvery-tongued Art Hughes presided over this showing which also included a very scrumptuous luncheon.

A. H. Shannon, owner of Coin Machine Sales Co. and his associate M. R. (Jesse) James, announced that sizable deliveries were being made on Bally, Chicago Coin and Packard equipment, James and Shannon flew to Dallas this past week on business . . . "The Southwest's Fastest Growing Distributors", a rather ambitious slogan, lately adopted by the Crowe-Martin Distributing Co. . . . Prosperity seems to have hit Gene Dean and W. O. Rabe smak in the middle . . . Sam and A. C. (Buster) Ayo, brothers, who are owner and sales mgr. respectively of Standard Music Distributors, spent a week at the home offices of Aireon Mfg. Corp. in Kansas City, Kans. Standard Music has been appointed, by the way, to sell the Excelsior records.

O. L. Bickley of Bickley Distributing Co. reports that he will slow up on other biz activities and major in distributing as soon as he can get hold of something to distribute. (If ".O.L." will watch *The Cash Box* closely he may soon see some very surprising announcements of new manufacturers which will interest him.) . . . South Coast Amusement Co. will sideline with a complete line of electrical home appliances and will set aside a part of its new bldg. for a verra, verra modernistic displiy . . . A. C. Durham traveled over the south Texas territory and reported big prospects excellent—only he couldn't anywhere near supply the record demand . . . Johnny Benton out of the Army and back with General Distributing.

Local coin machines were helped plenty by the nationally known Houston Fat Stock Show and Rodeo. Most of them had one or several out of town friends (depending upon how often they wanted a night out) to entertain. And from all reports, many actually did have out of town guests for this grand affair. Incidentally, a lot more money came in from all locations while the show was in progress. It was reported that H. M. Crowe tried to hire Tex Ritter for his record department and Ernest Gates talked the Masked Rider out of a ride on Silver.

MINNEAPOLIS

Well, here she is, another week of Minnesota's blustering cold weather mixed with rain, ice and snow, has just gone by. What a combination, folks, what a combination . . . However, it didn't stop Elias Atol from coming down to Minneapolis and seeing his friends. He was in his civilian clothes, looking fine and back on the job with big brother, Mike . . . Art Berg of Fairmont is full of smiles and very happy that his two sons, Ray and Dick, are back from the Army and Navy safe and sound. Both boys are on the job again and that's another reason why Art's so happy.

Eddie Skalicky in town for a day—and then gone . . . Cub Products gang and their wives in town for a few days to make merry . . . Van Middlemas of the Van Specialty Co. taking himself a nice vacation, according to all reports, in Seattle, Wash. . . . Fred Keiser is expecting his discharge any week now . . . Johnny Butorac in town last week attending the J.A.C. convention . . . Henry Greenstein of Hy-G Amusement Co. leaving for Miami Beach with his family. He plans to visit with friends all the way down since he's driving.

Ted Schoon stopped in Minneapolis for just one day—and says that business is really swell . . . Herb Thomas was in Mnnapls for the first time in three years this past week . . . Ello Oberg is recuperating very nicely from pneumonia . . . Dave Ziskin and Benny Friedman (not the famous football player) of Silent Sales Co. are in the bowling Calcutta at the Standard Club. Dave can really bowl, we hear. But, has anyone, anywhere, ever seen this guy Friedman bowl? . . . Jonas Bessler and Solly Rose of Hy-G are also entered in the same Calcutta. Someone should win—we hope.

WAIT 'TILL YOU

SEE AND HEAR...

WHAT

Aireon

HAS FOR YOU ON

"A DAY"

The Aireon Electronic Phonograph

YOU'VE never seen or heard automatic music equipment to equal it... because never before have the latest discoveries and developments of electronics been so fully applied to bring you beauty, tone quality, trouble-free operation, simplicity of service and a score of other exclusive Aireon features. How else could you eliminate nearly half the usual moving parts? How could you obtain such clear, brilliant, tone quality to flood every corner of the room... and eliminate the volume key by electronically controlling the volume in relation to outside noises? Only electronic lighting can give you so glorious a sparkle of color, such economy and coolness... so irresistable a play appeal. For your top locations, for extra coins in the cash box, for more profitable operation, and for the utmost simplicity of servicing you'll agree that your best bet is—

WHERE WILL YOU BE ON "A DAY"?

90 DAY LOCATION TESTS PROVE Bally VICTORY DERBY

GREATEST MULTIPLE PAY TABLE IN HISTORY

Here it is! **Bally's post-war pay-table—VICTORY DERBY! Packed with all the profit-proved features of Bally's famous pre-war multiples, VICTORY DERBY also introduces new play-provoking ideas that are pushing profits to a new all time high. Several hundred VICTORY DERBY tables on location two to twelve weeks are consistently breaking every collection record of the past two years. *Production will be limited by material shortages for weeks, maybe months.* So get your orders in today for early delivery.**

New DAILY DOUBLE

GUARANTEES REPEAT MULTIPLE PLAY

A startling new feature with all the suspense and big-winner appeal of the Daily Double at a real track! The new VICTORY DERBY Daily Double boosts earnings two ways—first, by increasing the average number of coins played per game—second, by producing a powerful "can't-quit" urge that insures repeat play by the hour. You've got to see and play VICTORY DERBY to know the magnetic pull of the Daily Double!

New FINGER-TIP SHUFFLE

AND DROP-CHUTE SPEEDS UP PLAY

Besides positive protection to your profits, the new VICTORY DERBY drop-chute—combined with the new finger-tip shuffle—easily increases play by fifty per cent. Simply let the coins dribble out of your hand into the open-mouth chute—and give the shuffle-knob a nudge! No wonder players say VICTORY DERBY is all fun and no work—and pour the steadiest stream of coins ever seen in coin-machine history!

No advertisement can possibly list all the new, improved features of VICTORY DERBY—the new sleek cabinet—the "switch-board" style mechanism—the new positive payout mechanism. See it, play it, look it over from top to bottom—and you'll want VICTORY DERBY on every pay-table location in your territory.

- One-ball play
- Changing odds
- Mystery Selections
- NEW DAILY DOUBLE FEATURE
- Big build-up reserve
- Spell-name feature
- Mystery—Special awards
